I write a letter to South Amherst
Dear Lovell, Lincoln Co. (Ct) May 9th 1848

Dear Friends:

I wrote a sheet at
W. intending to send it by ^{ca} Madri
who we supposed was going home
on a parlor but his parlor
went in another direction. We
left Winchester at 8 o'clock Monday
morning & marched every day
till yesterday noon, we arrived
here & probably shall stop here
a few days. It is now, ^{but} in the
morning the mail goes at 5
so I can't write much. It is
a beautiful sunny morning &
is quite a contrast to the
preceding days. It ~~is~~ has showers
every day or night since last
week ago last Friday the weather
has been quite cool but it has

Dear Friends:

I wrote a sheet at W. intending to send it by Modica who we supposed was going home on a furlough but his furlough went in another direction. We left Winchester at 8 o'clock Monday morning & marched every day till yesterday noon, we arrived here & probably shall stop here a few days. It is now just 7 in the morning the mail goes at 8 so I can't write much. muddy marching. We have
got toughened to marching so
we can go at first rate. Monday
we marched 10 miles towards
Levington Tuesday through Le &
17 miles beyond. We that day passed
the old residence & near the
burial place of Henry Clay
which brought to my mind
what the old patriot said in
a speech "if civil war takes
place in this country it will
be the bloodiest & most desperate
war ever known" How perfectly
his predictions are fulfilled!

The country about Levington
is the most magnificent I have

grain I never saw before

Wednesday we went 15 miles
through Nichols, Thursday we
passed through Bank Dick
Robinson yesterday 17 miles to
this place making about 60
miles since Monday I think
we are going on about 100
miles to Cumberland Mts.

We ^{are} very anxious to hear from
Hooker. We have as late as
Thursday Cincinnati papers
they speak of Stoneman's cavalry
expedition being an entire success
& very prospect of Hooker's forcing
Lee to retreat or get cut off.

Last night we heard a rumor
that Hooker had recrossed the river
but we can't believe it. I do
hope Hooker will have ^{mounts} reinforce

we were with much pleasure as I found
I have seen no other of our with these
no as to capture or cut that army
of Luis to pieces. He has got the
iron will & the dash to do it if
if he has the means. It seems by
the papers such fighting was never
seen in this war before. I
hope it will amount to some-
thing. I received No. 10
about three weeks ago & have
not received a letter since
I sent 11 & 12 with pictures in
them did you get them I wrote

Yours in haste W. J. Johnston
