write me a letter? I have not
received it. Tell her to try it
again & I will answer directly
I got a letter from Lizzie Foster
& Rose have answered it. I am
going to confine myself to answering
letters now in the future I can't get
time to write first. I should like to
hear from Jennie or any of my friends
in N. & will answer promptly

I think I promised to write to Sarah
Bumrill & as she has sent me a ~~some~~
things I will write as soon as I
hear from you write in your next if
she is at home. The Hillsboro Boys
are all well. We are all pretty tough
now & can bear most anything. The
weak & sickly ones have been discharged
or left behind. Our Reg has dwindled
down to a small battalion every time
we move we leave behind 10 or 20
sometimes 30 or 40. Charles Hall & Estie

were both left at Newport News. Leslie
was pretty sick I haven't heard from
him or Ball since write if you hear
of anything about them. Mr Gainers
folks are having a severe time. I hope
in my next letter to hear they are
all better. It was sad to hear of Jueys
death So James at Obaine now he
must feel very bad at the loss of
his dear Mother am much obliged to
Frank for remembering me & shall
expect after she gets better another good
letter from her. It is dreadful to be
sick. I never knew what how to pity
sick folks till I came into the army
for one to have a high fever during such
storms as we had at Solomath or the
measles at Newport News during such
alternately cold hot & cold & rainy weather
must have been dreadful I don't see how
any survived. There were 6 sick with
the measles at one time at NN all

What I have heard about, have got
over them. I send you my picture I
got taken to-day. The blower did not take
very well so he painted it blue but it
don't look very well now. I don't think
he takes very good pictures the saloon is
here in Camp & there is such a rush
he don't take much pains. He only
charges \$1 a picture but soldiers have to
put up with it. I got one taken day before
yesterday it was very hot & the sun so
bright it did not take very well I will
send you that in my next. Please keep
both if you receive them I thought I
wouldn't ^{send} different times as one might
get lost & would send you \$1 if it wasn't
for filling up the letter too much need
not mind about sending paper in
the letters now. I think of the head of the
2^d was on the first it would be a very
material picture. I got all the stamps
I will send three dollars in my next and
so if you want to go to B. you can with
the money. The spring is a bad time to
go to the city the fall would be much better
but it will be no halter in trying it
"Galt Horse" a pretentious name for salt keep
This paper was given me it got oiled by the
admiral's meat in a box melting water if you
can read this plainly.
