Dear Friends at Home:

I write  
a letter to Francis Sawyer yes  
day before yesterday. I intended  
to write you a few lines but  
the day before we had to go on  
recon. & then right off on picket  
so I had but little time to write  
before the mail went off.

I am well, tough & hearty the  
weather has been quite pleasant <sup>for some days</sup>

Please send me out a little

price of rubber in your next  
letter. Charles Heit says you  
have sent some things to me  
in this box I hope you have  
sent me some dried apple  
I had rather have a lot of dried

Dear Friends at Home:

I wrote a letter to Francis Sawyer day before yesterday I intended to write you a few times but the day before we had to go on review. & then right off on picket so I had but little time to write before the mail went off.

I am well, tough & hearty the weather has been quite pleasant for some days Please send me out a little piece of rubber in your next letter: Charles Hoit says you have sent some things to me in his box I hope you have sent me some dried apple I had rather have a lot of dried

and dried fruits than anything  
else. I have been thinking I  
should get a letter from you  
every day perhaps shall get one  
to-morrow: I suppose you can  
send nothing by mail except  
for letter postage. I should like  
to have you send me a few links  
of sausage perhaps a couple if the  
postage is not too much

When you send anything in a  
box send a loaf of bread graham  
I think will keep well they send  
out pie dough into cakes &c

I think it best not to risk  
any pie except mince. I bought  
a mince pie <sup>at auction</sup> that came out in  
Capt. Shattuck's box it tasted  
like home pie horses now  
will right through one came  
in 7 days for a Co. man. I received  
a letter from Madison a few days  
ago he is well he said the children were

I received a letter from Madison a few days ago he is well he said the children were

quite well & that Eddie could walk  
a little. I received a letter from  
Mrs Cheat & Loney not long since  
& one from James & Grannie  
a short time after. I suppose as  
Madison has got home you  
are proled on affairs out here  
he would tell you what we  
needed & what would be best  
to send. How is his health now

You say you suppose I miss  
my watch, I did little at  
first but I did not make  
much use of it hardly looking  
it once a day in fact could  
not get time <sup>to</sup> bother with  
it would frequently forget to  
wind it up & so it would run  
down. I thought it would be  
likely to ~~run down~~ get out  
of order & then it would be  
no better than no watch

out here. It went through the  
terrible battle & ticked along as regular  
as though its owner was having cur  
or raking hay in N.E. I thought  
you would prize it all the more  
for its being in the battle. How  
does the old clock go now?

What does Father do about that  
land in Wis. I think he had  
better write to Edmund Sawyer  
about it perhaps he could advise  
him what is best to do. Who is  
the Miss. Carlton McClintock  
married? Has he moved to the  
Bridges? Do the folks in O.C. hear  
anything from the boys in  
the Barlow Expedition. I see by  
the papers they are in in N.C.  
Am going to write to them  
soon. Has Jack Davis enlisted  
or Herman Davis?

Does Father keep the kifer yet?  
I suppose you have plenty of snow  
now in N.H. We have had no  
snow or rain to speak of since  
the battle. I am glad to hear of  
the Great Victory at
