SUNDAY AFT -
 DEC. 17th

My darling,
 There was a mail delivery to day and your air mail letter dated Dec. 6th arrived with your new APO #. I was very happy to know that you're now in a most comfortable stall in a city that hasn't been bombed. He would so cheerful about that long awaited shower and I can well imagine what a good feeling you experienced. My George not showering for 2 months - who would have believed such a thing. The folks were here this afternoon and I read them your latest letter. They were so glad to know you're well and in good spirits. From here they went to visit your Uncle Noel in Jack's home. Their love to you.

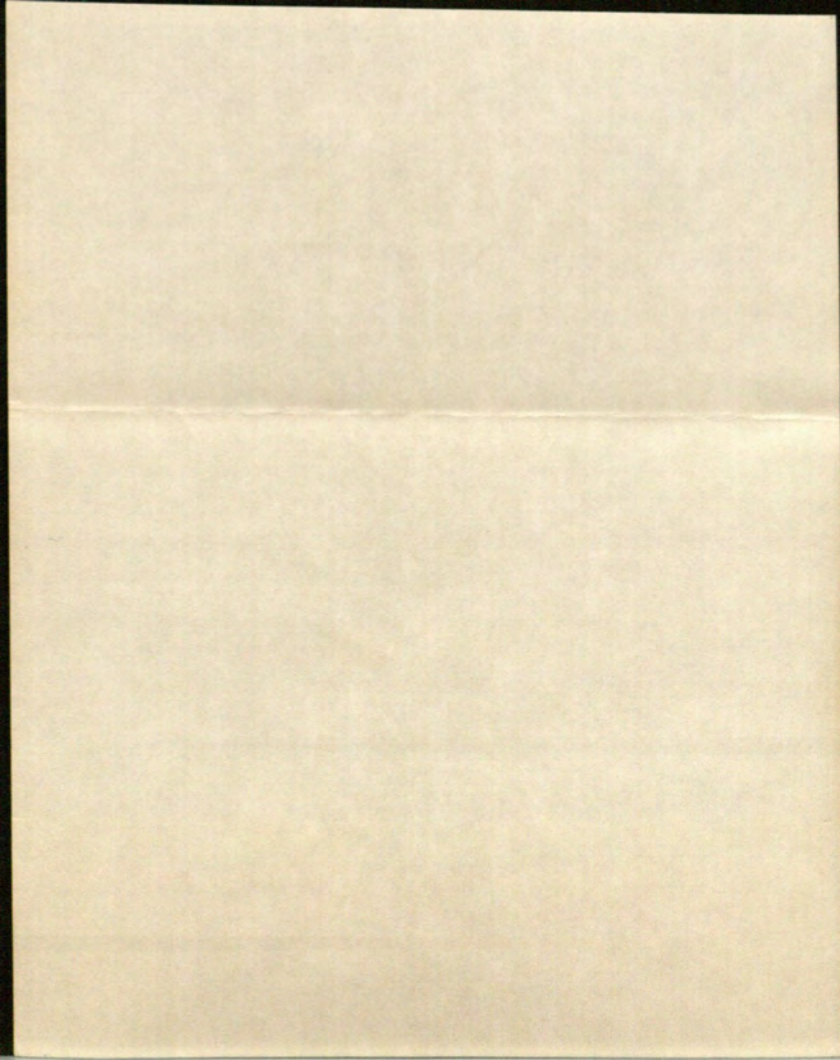

Weather was lovely today but a bit snappy. Saw Helma and Joel in the afternoon and all seems to be well (under the circumstances). I'm well and Jim is still a sweetascal. We took more snaps today and left to send them to you soon.

Give well and love to all and devotion to you as always. Love all the time and kisses from Jim.
