

Monday 11-22-43.

Dear Florence:

Writing this after that phone call - and having received your personal letter - It was heartening to hear your voice and get the official report that all is well - physically - Everything is as well as can be expected - Feel O.K. - Sunday night I saw "Tomorrow the World" original Boney cart - have been appointed a guide and I think I'll have more time to do nothing henceforth - Slightly impatient as to my disposition, but not worried - and don't you - will wait longer and more detailed letters after I get the writing kit - Stay healthy dear, and watch Jimmy - I'll be home sooner than you expect - as ever
