Thursday morn.  
12/2/43

George, my dearest,

Your telegram was read to me  
over the phone last night at 7 p.m.

I tried to get in touch with Mom and

Dad - they already left. It sure helped

to relieve the anxiety I've had

since getting that Monday 5 a.m.

letter. At least, I've an idea where

you are and like we're planned

we'll only think it's a business trip -

a long one - and hope our dearest

Studdy and my most beloved one is

2

well and excited about all  
the new happenings and surroundings.

When I think how silly we must  
have seemed only 2 weeks ago  
when we were discussing <sup>the probability of</sup> how near  
you were to be stationed, it all seems  
as though you and I were living in  
dream worlds or perhaps only trying  
to kid ourselves. But if that's how the  
situation is to be, we'll have to try  
our hardest to make the best of that  
"wonderful break" and just bide our  
time. It all seems so uncanny. You  
about 1500 miles away from all  
who love you and want you so very  
much. And yet, it's only 36 hours

away - that's one happy thought.

I hope your trip was a most pleasant one, with some humor involved. Write about every mile of it and some day real soon, we'll read <sup>the</sup> ~~that~~ <sup>letters</sup> to Jimmie and the others? These will be the real happy days - reading and looking back at Sladdy's army days. I hope they'll be only pleasant ones.

Two letters I wrote - on Sunday and Monday morning one of which contained the silver chain. Here's hoping you get the mail real soon plus chain. Dad received a letter from Bob Tuesday which I've answered on Thursday.

Had a slight snow flurry on Tuesday morn. and stayed indoors with our son. He still continues to do the sweetest things. On Tuesday afternoon at Mick

time he was feeding me a cup cake and  
you should have seen my face. We both  
had some laughs and before long he'll  
be tucking in his mummy. He's so  
good - like his Daddy.

Mom and Pop were here Tuesday we -  
they're both well and trying so hard  
to keep up their spirits - as Bob  
said in his letter - they're the best  
soldiers in the Stoff family." I speak  
with them daily and keep them informed  
with all the news of you.

Our friends still keep on calling  
and so many are awaiting your new address.

Keeps well, my beloved, and who  
knows maybe you'll be "discovered" yet.

With that same devotion and all  
the love that's in ~~my~~ heart, you find me  
Lovingly yours,  
Florence.
