

12 JAN 44

Dear George,

Received your post-card advising new address. I wish you'd stay put for a while; I guess you wish it more than I do. I know how much bother it is swinging your barracks bags around. I hope they stop swinging for a while.

Nothing much doing with me. classes, cadet officers, gigs, pep talks, little time off; that's the usual schedule. As with everything else I've done in the army, I am getting sick of it. My brain has but one tendency, that being to concentrate on being discharged. I wish this damn thing would end all ready.

Phoned Mom & Pop yesterday,  
as I had some spare time. All  
sounds well with them and  
Florence. They didn't know about  
whether Harry was operated on  
or not. I never received an  
answer from them - just a  
X-mas card.

Received a letter from their  
kid Seymour though, and as he's  
in the state of Washington, and  
as his letter was censored, I  
think he's at a P.O.E.

Fran and I doing  
well, but sure wish I had  
more time off than the 20  
hours I get every weekend.  
But, it's better than nothing.  
Hoping all's well —

With a handshake in mind. Bob
