Friday eve -

My darling,
 Just very cheerful letter of May 31st arrived this
 morn and left me in good spirits all day. Also had
 a letter from Pat and if his luck holds out he'll
 be in the States for a few more months. Those recent
 snaps of you and your buddies are going to make an
 interesting album and I must say you look quite young
 and healthy. Jim and I feel that way too but
 Jim must have some dynamite in his little body.
 We'll be leaving next Wednesday. I'm almost
 sure this time - and the delay is due to many things.
 Our mattresses came this afternoon and they're well.
 After our nap today, Jim and I went to the
 movies and I just had to see "Roughly Speaking", a
 very good picture. Jim believed him considerably he
 had to sit on 6 different seats. Met Clever (Phill
 coming home and she spent a few hours with us. We still
 love you and love her as much. She's well, clear as
 a crystal.
