

Monday evening
March 20th 1944.

Dearest beloved,

This morning I received your letter from you and was greatly relieved to know that all is well and that you had an enjoyable week on the range. It also makes me quite proud that you're a good shot - you can probably master any task once you set your mind on it. However I'm glad that basic is over with and you're back in camp again. That's a load off my mind.

When I stepped out of the house last night, the entire street was covered with snow and I didn't even know it was snowing until I got out to mail you

letter. The crunch felt so good under-
foot and the snow against my face
was so refreshing after being in the warm
apartment all day. When I returned I
listened to the programs and all the
music and singing was of Spring. And
today to welcome Spring we had a
blizzard and sleet later in the after-
noon. It's still coming down thick and
heavy but I love it. I think you do, too.

Baby and I are well and couldn't make
that visit to Dr. Conner because of the
weather so we changed the appt to wed-
nesday afternoon. On Thursday morning
the painter will be here to do the

3/

kitchen and bathroom.

Also received a letter from Bob and
he's fine and will be off to Las Vegas next
week. A statement also came from the bank
and our finances are intact. The folks are
fine and received a card from you and 2
letters from Bob. Their love to you. My
family is fine and I just spoke to my mom.

Early in the evening Danny called and
was quite busy all week in the office and
out of town. I inquired about Bernie and
he's going in on the 31st of March. In
the morning I spoke to Mr. Brown and he's
glad to know that we're well and that
you're doing all right. His best regards
to you. Jules Fisher called and his

Family is fine. He wrote to you to-day.

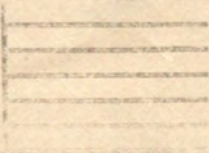

In this kind of weather I always get an urge to bake so baby and I whipped up a nice Devil's Food cake and its really good. Just the kind you've always liked with a bottle of milk. I cut a piece for Betty who's a good neighbor and appreciated it!

Its quite peaceful here and baby is asleep. Now I'd love to see you, darling! No matter where you go, I'm determined to be near you even only for a short spell if not the full time of your technical training. I do love you ever so much and miss you all the time. Baby doesn't even say mammy yet but I have hope that he'll talk when you're around.

All my love and devotion to you and a kiss and hug from Jessica. Always Florence
