Tuesday 6/19

George, dearest,

After mailing your letter, Bloss and Jan said us a visit. We're all well and my mom called from the city to say that all is under control. The weather isn't too nice and we've had intermittent rain all day. We went to the Monticello library and took out a book for Jim and "Inside Asia" for me. We'll be getting a phone here in a few days due to my being on my wife. It sure has its advantages huh! Hope you're fine and please don't worry. You really are God-fearing in what you do.

Tomorrow is Thelma's anniversary so I'll not forget to send a card - and also one to the folks before the 30<sup>th</sup>. Don't forget the gift and flowers. There's so much static on the air to-night that it's difficult to hear the program clearly. Jim's asleep and I'll be going to bed soon. Stay well and cheer up. All my love and devotion to you. Kisses from Jim
