

Friday eve;
May 12, 1964.

Large, dearlet,

Baby and I are fine and hope you're the same. Mom and Pop are also well and spoke to me earlier this evening. Mom received her gifts from Bob - 2 p.p.s. of shoes, 2 blouses and a lovely card. Bob mentioned in his letter to them that he may get home in 6 or 7 weeks so you can imagine how happy that alone made them. I may decide to get flowers and candy on Sunday for your Mom and if the weather is nice, Baby and I will walk to the house.

It's been quite warm again today and it's cooler this evening. I started on the closets and got all the "springizing" stuff necessary so you can imagine the various odors in the apartment. Jimmie is quite a help to me. He tries on all my hats while I count them and managed to look like a sweet girl with

very large straw hats. We had a lot
of fun doing all this and missed you
so very much. After lunch, baby napped
and I took 40 winks.

During the day Ann Walsh called
and was glad to know that all is well
with us. She was in the office yesterday
with her two boys. Mr. Pinus called
and sends his best to you. Betty is now
with me and we'll go down together to
mail this letter. Last night we had
an ice-cream party and as always I
thought of you.

Have a busy evening ahead of me and
later have to give myself a nice ones for
the Birth to-morrow.

Take good care of yourself and remember
my darling, I love you as much as ever.
Betty and I send you all our love.
Best regards from Betty and love from
the folks.

As always,
Florence
