

**SECTION IV – EVIDENCE FOR MEETING STANDARDS**

**ASSESSMENT 4 – STUDENT TEACHING FINAL EVALUATION**

**Note:** A description and copy of the Student Teaching Final Evaluation (as well as the original scoring guide) can be found in the initial program review report submitted in September 2006.

**Student Teaching Final Evaluation Scoring Guide (revised)**

| Standard/Outcome   | Does not meet standard   | Meets standard   | Exceeds standard  |
|--|--|--|---|
| <b>Growth and Development</b>  |  |  |   |
| 2.1 – Monitor individual and group performance in order to design safe instruction that meets student developmental needs in the physical, cognitive, and social/emotional domains.                                      | Unit and lesson plans do not include (or include developmentally inappropriate) ways to monitor individual and group performance in the physical, cognitive, and social/emotional domains. | Unit and lesson plans include developmentally appropriate ways to monitor individual and group performance in the physical, cognitive, and social/emotional domains. | Unit and lesson plans include a variety of developmentally appropriate ways to monitor individual and group performance in the physical, cognitive, and social/emotional domains. |
| 2.3 – Identify, select, and implement appropriate learning/practice opportunities based on understanding the student, the learning environment, and the task.  | Unit and lessons plans do not incorporate developmentally appropriate activities for the range of learners.  | Unit and lessons plans incorporate developmentally appropriate activities for the range of learners.   | Unit and lessons plans incorporate a variety of developmentally appropriate activities for the range of learners.   |
| <b>Diverse Students</b>  |  |  |   |
| 3.1 – Identify, select, and implement appropriate instruction that is sensitive to students’ strengths/weaknesses, multiple needs, learning styles, and prior experiences (e.g., cultural, personal, family, community). | Student equity is not evident in the teacher candidate’s professional behavior.  | Student equity is evident in the teacher candidate’s professional behavior.  | Student equity is consistently evident in the teacher candidate’s professional behavior.  |
| 3.1 – Identify, select, and implement appropriate instruction that is sensitive to students’ strengths/weaknesses, multiple needs, learning styles, and prior experiences (e.g., cultural, personal, family, community). | Activities are not planned to provide for challenge and success for various learners.  | Activities are planned to provide for challenge and success for various learners.  | A variety of activities are planned to provide for challenge and success for various learners.  |
| 3.1 – Identify, select, and implement appropriate instruction that is sensitive to students’ strengths/weaknesses, multiple needs, learning styles, and prior experiences (e.g., cultural, personal, family, community). | Unit and lessons plans do not incorporate developmentally appropriate activities for the range of learners.  | Unit and lessons plans incorporate developmentally appropriate activities for the range of learners.   | Unit and lessons plans incorporate a variety of developmentally appropriate activities for the range of learners.   |

| Standard/Outcome   | Does not meet standard   | Meets standard  | Exceeds standard   |
|--|--|---|--|
| <b>Management and Motivation</b>   |  |   |  |
| 4.1 – Use managerial routines that create smoothly functioning learning experiences and environments.  | Managerial routines (techniques) do not promote safety and on-task behavior resulting in learning time being wasted. | Managerial routines (techniques) promote safety and on-task behavior that maximize learning time. | Managerial routines (techniques) consistently promote safety and on-task behavior that maximize learning time. |
| 4.1 – Use managerial routines that create smoothly functioning learning experiences and environments.  | Transitions waste time and do not contribute to maximizing learning time.  | Transitions are completed in a timely manner and contribute to maximizing learning time.          | Transitions take a minimal amount of time to complete, thus maximizing learning time.                          |
| 4.3 – Use a variety of developmentally appropriate practices to motivate students to participate in physical activity in and out of the school.  | Does not engage students in learning in and outside the physical education class.                                    | Engages students in learning in and outside the physical education class.                         | Uses a variety of means to engage students in learning in and outside the physical education class.            |
| 4.4 – Use strategies to help students demonstrate responsible personal and social behaviors (e.g., mutual respect, support for others, safety, cooperation) that promote positive relationships and a productive learning environment. | Does not use strategies to promote respect and rapport among students.   | Uses strategies to promote respect and rapport among students.                                    | Uses a variety of strategies to promote respect and rapport among students.                                    |
| 4.5 – Develop an effective behavior management plan.   | Does not develop/implement a positive discipline plan.   | Develops/implements a positive discipline plan.   | Develops/implements a positive discipline plan that promotes self-responsibility.                              |
| <b>Communication</b>   |  |   |  |
| 5.1 – Describe and demonstrate effective communication skills (e.g., use of language, clarity, conciseness, pacing, giving and receiving feedback, age-appropriate language, nonverbal communication).                                 | Directions are not clear and brief.  | Directions are clear and brief.   | Directions are clear, and brief, and complete.   |
| 5.1 – Describe and demonstrate effective communication skills (e.g., use of language, clarity, conciseness, pacing, giving and receiving feedback, age-appropriate language, nonverbal communication).                                 | Does not provide effective feedback (primarily general).   | Provides effective feedback (positive specific, corrective).                                      | Provides effective feedback (positive specific, corrective) using student's name.                              |

| Standard/Outcome  | Does not meet standard  | Meets standard   | Exceeds standard  |
|---|---|--|---|
| 5.3 – Communicate in ways that demonstrate sensitivity to all students (e.g., considerate of ethnic, cultural, socioeconomic, ability, and gender differences). | Does not use respectful language that demonstrates sensitivity to all students.   | Uses respectful language that demonstrates sensitivity to all students.  | Consistently uses respectful language that demonstrates sensitivity to all students.  |
| 5.4 – Describe and implement strategies to enhance communication among students in physical activity settings.  | Does not use strategies to promote respect and rapport among students.  | Uses strategies to promote respect and rapport among students.   | Uses a variety of strategies to promote respect and rapport among students.   |
| <b>Planning and Instruction</b>   |   |  |   |
| 6.1 – Identify, develop, and implement appropriate program and instructional goals.   | Unit plan goals and instructional objectives are not clearly written (do not use the correct format) and do not address each of the three learning domains (cognitive, psychomotor, affective).   | Unit plan goals and instructional objectives are clearly written (using the correct format) and address each of the three learning domains (cognitive, psychomotor, affective).  | Unit plan goals and instructional objectives are clearly written (using the correct format), address each of the three learning domains (cognitive, psychomotor, affective), and connect to the needs assessment.                       |
| 6.1 – Identify, develop, and implement appropriate program and instructional goals.   | Lesson objectives are not clearly written (do not use the correct format) and do not address each of the three learning domains (cognitive, psychomotor, affective).  | Lesson objectives are clearly written (using the correct format) and address all three learning domains (cognitive, psychomotor, affective).   | Lesson objectives are clearly written (using the correct format), address all three learning domains (cognitive, psychomotor, affective), and match unit objectives.  |
| 6.2 – Develop long- and short-term plans that are linked to both program and instructional goals and student needs.   | Unit block planning includes a general outline of each lesson. It is difficult to determine the connection to unit goals and objectives.  | Unit block planning includes a general outline of each lesson that connects to unit goals and objectives.  | Unit block planning includes a detailed outline of each lesson that connects to unit goals and objectives.  |
| 6.2 – Develop long- and short-term plans that are linked to both program and instructional goals and student needs.   | Lesson plans are incomplete and do not match the outline in the unit’s block plan.  | Lesson plans are complete and match the outline in the unit’s block plan.  | Lesson plans are complete, match the outline in the unit’s block plan, and are clearly linked to unit goals and objectives.   |
| 6.4 – Design and implement learning experiences that are safe, appropriate, relevant, and based on principles of effective instruction.                         | Unit plan task analyses do not provide a variety of warm-up, practice, and application activities from which learning experiences that are safe, appropriate, relevant, and based on principles of effective instruction can be designed. | Unit plan task analyses provide a variety of warm-up, practice, and application activities from which learning experiences that are safe, appropriate, relevant, and based on principles of effective instruction can be designed. | Unit plan task analyses provide a wide variety of warm-up, practice, and application activities from which learning experiences that are safe, appropriate, relevant, and based on principles of effective instruction can be designed. |

| Standard/Outcome   | Does not meet standard  | Meets standard   | Exceeds standard   |
|--|---|--|--|
| 6.4 – Design and implement learning experiences that are safe, appropriate, relevant, and based on principles of effective instruction.  | Activities planned for lessons are not safe, appropriate, relevant, and based on principles of effective instruction. | Activities planned for lessons are safe, appropriate, relevant, and based on principles of effective instruction.            | Activities planned for lessons are safe, appropriate, and relevant. The planning shows an in-depth understanding of the principles of effective instruction. |
| 6.5 – Apply disciplinary and pedagogical knowledge in developing and implementing effective learning environments and experiences.   | Plans do not reflect knowledge of content and pedagogy.   | Plans reflect knowledge of content and pedagogy.   | Plans reflect in-depth knowledge of content and pedagogy.  |
| 6.7 – Select and implement appropriate (i.e., comprehensive, accurate, useful, safe) teaching resources and curriculum materials.  | Plans do not show the use of a variety of resources.  | Plans show the use of a variety of resources.  | Plans show the use of a wide variety of resources.   |
| 6.8 – Use effective demonstrations and explanations to link physical activity concepts to appropriate learning experiences.  | Uses ineffective demonstrations/explanations of motor skills and activities.  | Uses effective demonstrations/explanations of motor skills and activities.   | Consistently uses highly effective demonstrations/explanations of motor skills and activities.   |
| 6.9 – Develop and use appropriate instructional cues and prompts to facilitate competent motor skill performance.  | Does not use appropriate instructional cues and/or prompts to facilitate competent motor skill performance.           | Uses appropriate instructional cues and/or prompts to facilitate competent motor skill performance.                          | Consistently uses succinct instructional cues and/or prompts to facilitate competent motor skill performance.  |
| 6.10 – Develop a repertoire of direct and indirect instructional formats to facilitate student learning (e.g., ask questions, pose scenarios, promote problem solving and critical thinking, facilitate factual recall). | Does not use questions to promote student learning and responsibility.  | Effectively uses questions to promote student learning and responsibility.   | Effectively uses specific questions to promote student learning and responsibility.  |
| 6.10 – Develop a repertoire of direct and indirect instructional formats to facilitate student learning (e.g., ask questions, pose scenarios, promote problem solving and critical thinking, facilitate factual recall). | Does not provide appropriate closure to lessons.  | Provides appropriate closure to lessons using both direct and indirect instructional formats to facilitate student learning. | Provides appropriate closure to lessons using a wide variety of direct and indirect instructional formats to facilitate student learning.                    |

| Standard/Outcome  | Does not meet standard   | Meets standard  | Exceeds standard   |
|---|--|---|--|
| <b>Student Assessment</b>   |  |   |  |
| 7.2 – Use a variety of appropriate authentic and traditional assessment techniques (including both self- and peer assessments) to assess student understanding and performance, provide feedback, and communicate student progress (i.e., for both formative and summative purposes). | Planning does not include provision for assessment of student learning.                            | Planning includes, as appropriate, one formative and one summative method of evaluation to assess student learning. | Planning includes, as appropriate, multiple formative and summative methods of evaluation to assess student learning.  |
| 7.2 – Use a variety of appropriate authentic and traditional assessment techniques (including both self- and peer assessments) to assess student understanding and performance, provide feedback, and communicate student progress (i.e., for both formative and summative purposes). | Limited use of assessment techniques to evaluate student learning for lesson objectives.           | Uses a variety of assessment techniques to evaluate student learning for lesson objectives.                         | Uses a wide variety of assessment techniques to evaluate student learning for lesson objectives.                       |
| 7.2 – Use a variety of appropriate authentic and traditional assessment techniques (including both self- and peer assessments) to assess student understanding and performance, provide feedback, and communicate student progress (i.e., for both formative and summative purposes). | Does not provide effective feedback (primarily general).   | Provides effective feedback (positive specific, corrective).  | Provides effective feedback (positive specific, corrective) using student's name.                                      |
| <b>Collaboration</b>  |  |   |  |
| 10.2 – Actively participate in the professional physical education community (e.g., local, state, district, national) and within the broader education field.   | Does not contribute to the school district and/or seek opportunities for professional development. | Contributes to the school district and seeks opportunities for professional development.                            | Contributes in a variety of ways to the school district and seeks multiple opportunities for professional development. |
