

Dear Florence & George I wrote you
a letter and never had time to
finish it so here is a new one.
We opened our place on Wednesday
and are doing fine. I mean Al
is a good salesman, but I have
to get used to it.

Your order is all packed and
will be on its way as our first
order we had when our doors
opened.

I am glad you miss us, and
don't ask how we miss you
I wish we could do something
about it, maybe we will in the

summer, or [&] better if you could
visit us soon, that would be
swell. I dare you!

Just had a letter from Flora.

She did quit work and is home
and vomiting her head off and
Ivory isn't liking it a bit.

The dirt is going a long way
around.

Thanks a lot for taking care
of my insurance and I send
you the check in this letter.

The insurance man came around
hier already and everything
is under controll.

3.) Hope you all had a good time
on the Annual Affairs which we
could have gone together.
You people surely have a nice
program, seeing all those nice
shows.

You want to know how we are
getting along. In business, we
didn't do bad for the first day
we can't tell yet, but we have
hopes. Financially we are broke
right now. We could use a lot
more things but we are taking
it easy, till we make some money.
Socially, we know a lot of people
and also made some nice friends,
but not like you.

4/ you did swell with my coats

Thanks Florence have to send you
a check in my next letter as Al
has the checkbook and I will be
a sleep till he comes home.

We start at 7 in the morning
and Al closes at 12 at night.

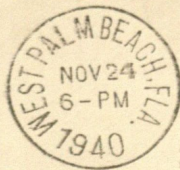

he sends me home a few buers
earlyer. It is surly hard work.

So I say good night, and all
my love to you both
