

Danbury Aug 15th 1881

Gen.

Yours of the 23rd Ult. I recd. y^{rs} 3rd

Inst. and duly note the contents

I had thought of moving the Continental Store from Portsmouth, as there had been but little or nothing to be done for the greater part of the time since M Beechford had the care of it, and I expected after the recruits & those on Furlough had Marched to join the Army at the opening of the Campaign it would not be necessary to have a store open at Portsmouth, and directed M Richardson my Assistant in Boston to make particular Inquiry. If he found no more business to be done than was last summer. I move the store —

But since I have received your letter, have concluded to continue the store at Portsmouth, and shall give directions to have Supplies furnished for the same from time to time as shall be necessary —

Particular Attention will always be paid to your advice. by your Most
Obedient Humble Servant

To the Com^{tee} of Safety for the
State New Hampshire
