## WELCOME FROSH

### Open Letter To New Students

The five days of activities planned for you represent a composite of many hours of work and a sincere concern for the incoming student. The present concept of orientation was designed and implemented only one year ago by a group of interested students. The results were so favorable that we are using it again this year and with some improvements.

Keene State College, like most other colleges, is a community within a community. Its growth depends upon the total utilization of resources and its most important resource is people. The city of Keene is small, and the diversions it offers from "the books" are limited. This places a much greater burden on each student to tap his own creativity and to invest more of himself in his fellow students. The New Student Orientation Program is just one of many ways in which students have initiated and implemented their concern and involvement for others.

It is our hope that you will find your adjustment to college life a little easier, and that through your interaction in these first few days you will feel a sense of belonging to the college community. We have been chosen from among more than one hundred student volunteers to bring a program designed to provide information about college life, courses of study, and information about the resources of the college. It is our sincere hope that we have enabled you to make an easy transition into college life. We wish you success and good luck in your academic venture.

### Class Of '72 Largest Yet

Keene State College's Class of 1972 has come to the KSC campus this Thursday (Sept. 5) in record numbers, armed with an array of academic and personal accomplishments.

The 485 freshmen are the largest class in the College's history. Among them are 2 high school valedictorians, 3 salutatorians, and 50 National Honor Society members. 230, almost one half of the incoming class, achieved academic recognition of one sort or another during their high school tenure.

Personal achievements are many and varied. Several have been exchange students, living in Europe and Central America as extensions of their studies. A winter carnival queen, a Vermont dairy princess, and a Cheshire Fair Queen are among the entering coeds. Many of the young men and women have gained honors in sports, physical fitness, home economics, and science. And there are also sport parachutists, folk singers, an award-winning film director, a published poet, and an award-winning actress.

They'll all be on hand for five days of academic and social orientation that will last through Monday, Sept. 9. Classes begin Tuesday, Sept. 10, for everybody.

The class of 1972 hails from 214 cities and towns throughout New England, New York, New Jersey, Pennsylvania, North Carolina, Texas, Florida, and Puerto Rico.

There are 269 women and 216 men in the new KSC class. 369 of the 485 come from New Hampshire and 116, or 24 percent, coming from out of the state.

John J. Cunningham, Director of Admissions, said that applications totaled 1,065, and that there was an overall acceptance rate of 45 percent. Of the 611 applying from New Hampshire 60 percent were accepted. Of the 454 applications from outside of New Hampshire, the College admitted 25 percent.

The Class of 1972 by state:

New Hampshire	369
Massachusetts	48
New York	22
Vermont	18
Connecticut	14
New Jersey	6
Rhode Island	2
Pennsylvania	2
North Carolina	1
Florida	1
Texas	1
Puerto Rico	1

### Booth Display

Activities Committee chairman Mr. Joe Redrigan urges all freshmen to take advantage of the special display program to be held in the Lloyd P. Young Student Union, Monday, September 9th. Although this display is primarily for incoming students, upper classmen will also benefit from this event. The Activities Committee has arranged for representatives of campus clubs and organizations to maintain booths so new students will gain immediate insight and information of what activities are available at Keene State College. It is hoped that such an immediate awareness of clubs will stir students to engage themselves in one or more of these organizations represented. The extra-curricular program is not only enjoyable but necessary for the betterment of the individual and consequently should be considered an important supplement to the academic curriculum.

Ed's note - This is the second year that Dr. Peter Jenkins has been in charge of the Freshman Orientation and Registration Program. It is unfortunate that incoming freshmen will not be aware of all the major improvements instituted by Dr. Jenkins but it should be noted that hazing will be at a minimum, there is more opportunity for incoming students to meet one another, and "meet" the college. The program is designed to make the new students feel that they are a part of the college rather than just newcomers. THE MONADNOCK congratulates Dr. Jenkins and all the upperclassmen who took part in preparations for the freshman programs. It's a job well done!

# EDITORIAL

## Students Challenged

Two years ago the Keene State College Student Body was best known for its apathy. The Student Body did not support the Administration when things were right nor did it endeavor to change that which was apparently wrong. The Keene State College Student was in a rut of Fraternity parties and Bid Whist card games. Why was there such apathy and what caused the lack of interest in school affairs?

The primary reason was that the Student Body was basically uninformed. A secondary reason might be a lack of directive leadership. A definite campus leader, THE MONADNOCK, had obviously failed in its primary purpose of providing complete news coverage of all campus activities, including the Administration, and thereby inspiring student interest. By this failure THE MONADNOCK also failed to give a direction in which potential enthusiasm could be aimed. One year ago THE MONADNOCK staff decided it was time for a change. We felt that it was time that the college paper became more than a compendium of journalistic technicalities and, rather gave voice to current thoughts and ideas.

THE MONADNOCK began with articles concerning the outdated curriculum, the Administrations apparent disregard for the individual student, and students rights. Articles also discussed the Student Body's disregard for the positive things the Administration has done for the college, the lack of interest in the Student and Faculty Senates, and a general disregard for the great potential of Keene State College. Other articles on such subjects as drugs, drug usage on college campuses, circulating questionnaires on local drug use, and strong editorials gave this campus something to talk about besides weekend dates. THE MONADNOCK, by emerging as the leader a campus newspaper should be, led the way for others to come forth and create an active, thinking student body. Some of these students are organizing groups, such as a free poetry society, and an organization for students rights. Other students are engaging themselves in roles that will help the college activities expand, diversify, and build a better relationship with the City of Keene. A major step in student involvement was taken last May when 20 students petitioned, with the support and signatures of the Student Body and some faculty, to protest the dismissal of an instructor.

The improvement in the Student Body was not great, but it was obvious, and it can become great. Keene State College is no longer the restricted, parochial institute of years past, as witness the major construction program and growth in the last five years. You, as freshmen, have a fortunate opportunity to play a major role in the direction of the Student Body because you enter college at a time when the Administration is aware of your presence and is willing to heed your presence. It will take time and effort but THE MONADNOCK urges you to accept the challenge, take an active role in recreating this campus, voice your thoughts and ideas through active student channels, and become part of a new and exciting change at Keene State College.

### Convocation Blurb

The all-college convocation has been scheduled for Wednesday, Sept. 18, at 10 a.m. Following the precedent of the 1968 convocation, this function will involve a formal academic procession. Weather permitting, the convocation will be held on the Fiske lawn.

## Guest Editorial - The College's Future

Ed. note - (The following is a guest editorial, by KSC's President R. J. Zorn, which appeared in the Keene Evening Sentinel Thursday, July 25, 1968.)

The past and present are prologues to the future, and Keene State College is no exception to this. Growth, re-development, and diversification have been our chief characteristics in recent years, and the college now has strong momentum toward its goal of regional stature in teacher preparation and liberal arts education.

The most obvious dimension of change has been in physical facilities. Our expanded campus has added the new Science and Arts Building, the Mason Library and the Thorne Art Gallery, the Technology Building, the KSC Dining Commons, and the Randall Residence Hall. The new Physical Education Building is nearing completion as construction begins on another student dormitory. In the past four years, in fact, the college has constructed more facilities than in the preceding 40 years.

The growth of the campus, of course, is directly related to the expansion of college services. Since 1964, enrollment has risen 60 per cent to 1,652 students, and the faculty has doubled to more than 100 full-time teachers. New degree programs have been introduced, and both summer session and extension programs have doubled in scope.

In the redevelopment of what was a relatively small teachers college, there have been several significant lines of departure. The real growth of the college is in better quality instructional services, in diversified educational opportunities, and in its influence upon the city of Keene and the surrounding Monadnock area.

Educational contributions are the most obvious. To date, Keene State College has provided more teachers for the public schools of New Hampshire than any other institution of higher learning. Diversification into the liberal arts and the sciences has strengthened the academic quality of our teacher education graduates, and we continue to expand the numbers of men and women preparing for careers as teachers. Meanwhile, through the bachelor of arts and bachelor of science curriculums, we also serve students who desire preparation for careers in the professions or who aspire to the advanced degrees offered by graduate schools.

The college's educational involvements range from graduate study for experienced teachers, down through the undergraduate curriculums, and into the public school systems through innovative and enriching programs developed at Wheelock Laboratory School. Supplementary opportunities are offered through summer sessions and evening extension courses.

The economic impact of the college is often overlooked. Our 1967-69 biennial expenditures will exceed \$5.5 million, and in the same period KSC students will spend some \$500,000 in Keene and the surrounding region. Most of these funds are channeled directly into the community as our faculty, staff, and students make the usual expenditures for groceries, clothing, household furnishings, automobiles, recreation, insurance, savings, and taxes. Moreover, in the past five years the college has spent \$10 million for improved campus facilities, with 40 per cent, or \$4 million, being expended locally by contractors who in turn generate employment and buying-power for area workers.

Projecting our development for only seven years, to 1975, we can expect an enrollment of 2,500 students and a corresponding growth in staff and facilities. A 50 per cent increase in the college's expenditures generated by 1975 will give Keene the impact of a major growth industry.

There are many other aspects of the college as an important community resource. For example, our new technology curriculum is directly geared to the needs of the Monadnock Region. Two-year programs in industrial electronics, manufacturing processes, and industrial design will expand educational opportunity and also help staff the expansion of industrialization in southwestern New Hampshire. In another aspect of service, the college's many specialists — in fields ranging from art to zoology and from chemistry to elementary education — are increasingly consulted by various sectors of both public and private enterprise. Additionally, the special facilities of the campus — particularly our library, conference, and clinical resources — are made available to many civic and professional agencies.

Keene State College is, of course, a major cultural agency in itself. Not only does the campus provide stimulus and outlet for the talents of faculty and students, but it is becoming a regional center for intellectual and aesthetic activity. The Thorne Art Gallery, for instance, operates with joint involvement of "town and gown," and college musical, dramatic, and athletic programs are open to the general public. Furthermore, through its Lectures and Concert Series, the college annually sponsors a variety of outstanding events. Thus local audiences have enjoyed concerts ranging from the Paris Chamber Symphony to Dave Brubeck, and they have heard noted speakers such as former United Nations Secretary-General Charles Malik and Attorney F. Lee Bailey. In the years ahead, as the college mobilizes greater resources, its co-curricular programs will significantly enrich the regional cultural environment.

# Orientation Program Schedule

Thursday, September 5

9:00 a.m. Registration  
1:00 p.m. Meeting with Group Leaders

2:00 p.m. Welcome to Parents and Students, Fiske Lawn

3:00 p.m. Reception for Parents, Mason Library. Students may accompany their parents through the receiving line.

3:00 p.m. Language Placement Examinations for all entering students, who have had two or more years of a foreign language and who intend to continue with that language.

4:30 p.m. Reassemble into Groups.

5:00 - 6:30 p.m. President's Supper for New Students, Dr. Roman J. Zorn and his family will be present to welcome all students.

7:00 p.m. Residence Hall Meetings in Respective Residences.

8:00 - 11:15 p.m. Mixer Dance, Spaulding Gymnasium "The Bedrocks."

Friday, September 6

8:30 a.m. Group Discussions of Schedules. The discussions will be held by curricula (Liberal Arts, Elementary Education, Secondary Education, Industrial Education, and Home Economics)

10:00 a.m. Coke Break, Morrison Patio.

10:30 a.m. Pre-Registration. All students will meet with their group leaders to go over schedules and fill out all pre-registration forms.

1:00 p.m. Registration for Freshmen, Morrison Hall. Students will enter by east door to room 70.

8:00 - 11:30 p.m. Concert and Dance, Spaulding Gymnasium - "The Indigos"

Saturday, September 7

9:00 a.m. - 12:00 n. Textbook Purchasing Time, College Bookstore. Exclusive period for freshmen.

1:00 p.m. Introduction to Student Personnel Services, Armstrong Hall, St. Joseph's School.

2:00 p.m. Personnel Deans Conferences on Campus Residence Students - Women, Science 101 Men, Science 102.

2:45 p.m. Off Campus Students and Commuters - Women, Science 101, Men, Science 102.

3:30 p.m. New Students work on bonfire.

8:30 p.m. Talent Show, Spaulding Gymnasium.

Sunday, September 8

10:00 - 11:30 a.m. Continental Breakfast

1:00 - 8:00 p.m. New Student Outing and Barbecue, Recreation and Swimming, Bus transportation will be provided to and from Wheelock Park.

Monday, September 9

10:00 a.m. - 12:00 n. Activities Orientation, Student Union, Room 14.

1:00 p.m. - 5:00 p.m. New students work on bonfire.

3:30 p.m. Registration for Transfer Students, Morrison Hall. Students will enter by east door of room 70.

8:00 p.m. Bonfire.

9:00 p.m. - 10:45 p.m. Mixer Dance for All Students, Spaulding Gymnasium.

### THE COLLEGE'S FUTURE

(Continued from page 2)

Keene State College, however, is not striving to become a "multiversity." It will not be open-ended in enrollment growth and it will not duplicate all educational specialties within the broad scope of higher education. Rather, it is building the faculty and supporting resources for the specific areas of teacher preparation, professional and liberal arts studies, and industrial technology. Thus the foundations are being developed for a college of medium size, capable of excellence in a limited number of programs. The momentum gained in recent years expedites an outstanding state college for Keene, the Monadnock area, and the New England region.

## Foliage Factors

Experts explain that New Hampshire's famed foliage display is the result of a fortunate combination of climate, prevailing species of trees, and terrain that shows it to the best advantage. Another factor is the contrast of red and gold hardwoods against the dark green of pines and spruces. As one expert said - "Hills and mountains provide an ever changing and continuous display as the leaves turn color at each elevation. This prevents the monotony of one particular outburst of color which is soon gone."

KEENE N.H. 03431

WEDNESDAY, SEPTEMBER 18, 1968

## 5 Administrators 18 Faculty Members Added To KSC Staff

### KSC Soccer Team Goes International

By Vern Young

Our Keene State College Varsity Soccer team will be enhanced this season by the presence of Stephen J. Parker, of Slough, Buckinghamshire County, England (12 miles west of London).

Stephen will bring a great deal of experience to the team. He was captain of his Technical School for four years averaging 60 matches per season. He represented his country in four international youth matches against Wales, Germany, Scotland and Ireland and has also played youth soccer for several professional teams such as West Ham United and Reading. His hopes for a professional career were somewhat dimmed however, when he suffered both a broken shoulder and a case of hepatitis. This sidelined him over 18 months.

He has expressed great satisfaction with the team and feels that their enthusiasm will help build the right attitude for a profitable season. His coach, Mr. Sumner Joyce, stated that he felt a coach of Stephen would be a fine addition for the Owls as they make a concerted effort for the conference title.

Last year's team had a 9-4 record and lost only one regular, Ronald Dias, a leading scorer. The Owl booters open the season at home against Lyndon on September 28. Let's support them!

### Students' Rights Achieved

This past summer has been marked by many administrative improvements on Keene's campus, as witnessed in the new Student Handbook. The student body at large may hope for more liberal changes to come, but the major complaint, that the handbook was far too ambivalent, has certainly been irradiated.

Last semester a committee of the College Senate, with representatives from the Student body, compiled the new handbook with the basic intent of making College regulations more comprehensible, and preserving students' rights. If these rights seem to be ignored in the secondary fields of dress, class attendance, etc., the student should bear in mind that the committee has done well to bring change into the area of disciplinary action.

Prior to this year the student was denied the right to appear before the hearing committee that tried him, in fact he was not even allowed to know what persons comprised this committee. Furthermore, the status of a student pending action was never defined by the handbook, and was therefore left to the decision of the respective deans.

Disciplinary measures were not clear and have been for the most part left open for free interpretation by the college. The new handbook eliminates this problem by giving complete definitions of infractions and the penalties that may occur.

The new handbook allows that a student may remain on campus prior to his hearing providing that he is not subjected to negative results. Furthermore, the student now has the right to appear before the hearing committee, and his right to counsel as well as his right to appeal, has been retained.

The Student Faculty Judiciary Board is more clearly defined with allocation of powers which give the board an opportunity to make considerations faster, which is certainly in the student's favor. The

handbook also stipulates that the Hearing Committee will not meet sooner than three days after the charge has been given to the student, and that it will not meet later than 14 calendar days after the charge. This insures the student time enough to prepare his defense, and also allows that his hearing will occur as soon as is possible for him.

Aside from the major changes stated above, are minor changes in the dress code which appear somewhat more liberal, and an overall cleaning up of the obviously ambivalent terminology that was prevalent.

Many students are still concerned with further changes that can be made, feeling, for example, that a college education is a right and not a privilege. Some feel that the college has no right to play the role of the student's parent, as in many cases it does. But regardless of how the student body may feel toward further changes, most students will agree that the new handbook is indeed, a great improvement.

### Barnes' Door

Normally, this sometimes-weekly column is considerably longer than this one will be, but, with the crush of beginning-of-semester business, that's life.

First, I want to welcome the Freshmen and urge them to be come familiar with the Library as soon as possible. At the risk of sounding hokey, such familiarity will stand them in good stead for the next four (?) years.

Also, for those old-timers who haven't stopped in since their return to the campus, the book collection has been changed to such an extent that even you will probably feel as lost as the Fresh when you start hunting for books.

Actually, the new arrangement is far more logical and, therefore, easier to work with than the old one. Large floor plans have been

### Thorne Art Gallery Opens Fourth Year

The first of eight exhibits planned for the 1968-69 academic year at Keene State College's Thorne Art Gallery features a wide-ranging collection of oil paintings from the noted Midtown Galleries of New York City.

The exhibit is titled "A Selection of Oils by Twenty-One Artists" and will run for three weeks through Oct. 5. Thirty-one paintings will be on view.

Among the contemporary American artists represented is William Thon, whose lyrically expressive

Experience combined with fresh, new ideas characterize the 1968 Keene State College staff with the appointment of thirty new members including five administrative officials, eighteen full-time, and five part-time faculty members and two graduate assistants. This list includes seven men holding doctor's degrees, two of whom hold associate professorships.

Dr. Clarence G. Davis, Dean of Instruction, holds his B.A. from Franklin College, his M.A. from Indiana University and his Ph.D. from the University of Indiana. He has been an assistant professor of philosophy at Indiana University and chairman of the Graduate Studies Program and Director of Summer Sessions at the University of Evansville. He is married and has three children.

Robert L. Taft, financial aids officer, holds a bachelor of science from Pennsylvania State University, a master of education from Indiana University of Indiana and has one graduate work at the University of Missouri.

Mr. Taft has received the Pennsylvania State Education Association graduate scholarship and was the NDEA institute recipient at the University of Missouri. Before coming to Keene he was Marlon Center Area High School Counselor in Columbia, Mo., and taught psychology, sociology and physiology. Mr. Taft is married and has three children.

Robert P. Salmon, the public information officer, received his bachelor of science in journalism from Boston University. He has free-lanced in writing and public relations; edited a quarterly newspaper for the N. E. Age Center, Boston.

More recently, he was employed as a sports writer for the Florida Times Union in Jacksonville and has two children. He is married and his wife is an assistant professor of Cornell University. Mr. Salmon and his wife have five children.

Charles E. Smith, the new director of housing is a graduate of Mount St. Mary's College and

Syracuse University, where he received a master of arts degree. He has been residence director for graduate housing at the State University of New York at Albany and resident adviser and personnel intern at Syracuse. He is married and has two children. Donald R. Moore, associate director of the Student Union holds a bachelor of science degree from St. Lawrence University. Before coming to Keene he was head resident at St. Lawrence, operating a freshman residence and doing academic and personnel counseling. He has a wife and two children.

Thomas M. Antrim, instructor in English, attended Massachusetts Institute of Technology, where he received a bachelor of science degree. He later was the recipient of a master of arts degree from the University of Michigan.

He held a University of Michigan Graduate Fellowship for three years and was awarded the Avery and Jule Hopwood Prize for fiction. Before coming to Keene he was a teaching assistant at the University of Michigan. Mr. Antrim is married and has one child.

Martin W. Brown is an assistant professor of Psychology. He received his B.A. from Brown and his Ph.D. from the University of Maine. He won the National Merit Scholarship and an NDEA Fellowship. He was a research assistant at Tufts Dental School before he and Mrs. Brown came to Keene.

Richard F. Doble, instructor in industrial education, is a Keene State College graduate who holds a master of science from Indiana State University. He received full fellowship for graduate studies, served as a teaching fellow at Indiana State. He is married and has two children.

Edmund A. Gianferrari is assistant professor of Biology. He was educated at Boston University and Rutgers and holds B.A., M.A. and Ph.D. degrees. He has

## Former Indiana Frosh Coach To Join Staff

Appointment to the Keene State College faculty of Glenn H. Theulen, currently freshman basketball coach at the University of Indiana, was announced to day by President R. J. Zorn.

Theulen will be Assistant Professor of Physical Education and head coach of basketball and baseball. He replaces Kenneth L. Jones in both coaching and teaching duties at the College.

"We recognize the difficult job that Ken Jones has been engaged in," said President Zorn, "and we appreciate his effective efforts for future KSC basketball development. Certainly we wish him continued success in his future endeavors."

Coch Theulen is a graduate of Buena Vista College and played guard on its 1961 basketball team represented in the N.A.A.U. national tournament. He has also completed graduate study for the Master of Science in Physical Education at the University of Indiana.

Theulen coached high school basketball for five years, prior to joining Coach Lou Watson's staff at Bloomington. His first public school coaching was at Pandora, Iowa, and in 1963 he became head coach at Lake County Regional High School in Colorado. In his second year in this post, he was named Colorado "Coach of the Year" for 1964-65.

While enlisted in the U. S. Air Force, Theulen played varsity basketball and baseball for Pease Air Force Base. In 1956-57 he was player-coach of the Pease basketball team. Theulen also has four years of semi-pro baseball experience in Iowa and southern Minnesota leagues.

"We are fortunate in securing the services of a seasoned and highly successful coach," Pres. Zorn said. "Glenn Theulen desired relocation in New England, he wanted to be a head coach of basketball and baseball, and he liked the challenges of rebuilding KSC athletic fortunes."

"We hope that our intercollegiate sports programs will improve in comparable measure to other aspects of KSC redevelopment," Dr. Zorn continued. He also noted that the new \$2,000,000 Gymnasium was scheduled for completion in mid-summer, that there now were improved prospects for athletic talent, and that coaching leadership could spark these advantages into a new era of successful KSC athletics.

He has expressed great satisfaction with the team and feels that their enthusiasm will help build the right attitude for a profitable season. His coach, Mr. Sumner Joyce, stated that he felt a coach of Stephen would be a fine addition for the Owls as they make a concerted effort for the conference title.

Last year's team had a 9-4 record and lost only one regular, Ronald Dias, a leading scorer. The Owl booters open the season at home against Lyndon on September 28. Let's support them!

Normally, this sometimes-weekly column is considerably longer than this one will be, but, with the crush of beginning-of-semester business, that's life.

First, I want to welcome the Freshmen and urge them to be come familiar with the Library as soon as possible. At the risk of sounding hokey, such familiarity will stand them in good stead for the next four (?) years.

Also, for those old-timers who haven't stopped in since their return to the campus, the book collection has been changed to such an extent that even you will probably feel as lost as the Fresh when you start hunting for books.

Actually, the new arrangement is far more logical and, therefore, easier to work with than the old one. Large floor plans have been

RIGHT THIS WAY — Huntley S. Pierson of the Monadnock editorial board watches the writing hand of a new Monadnock staffer as she indicates her choice of student activities.

### Public Relations Department

A new full time Office of Public Information was created this past summer and will work in cooperation with students, faculty and administrative staff.

The duties of the public information officer (PIO), Robert P. Salmon, are primarily to be aware of, gather, write and distribute news of Keene State College.

### The Education Beat

The following is the first in a series concerning certain problems and advances in the field of education.

Their chart is obviously trying to discredit the teachers' need for further raises. For example, they fail to compare teachers to the salaries of lawyers, doctors, druggists, and other professionals.

By Harold C. Colburn

REIGNING COED — Miss Judy McKinely, freshman transfer student from Cheshire, Connecticut, is an attractive addition to the Keene State College campus.

### Queen Is Chosen For Orientation

KEENE - A Cheshire, Conn., girl who aspires to be a home economics teacher is orientation queen at Keene State College for the 1968-69 academic year.

Dark-haired Judith Anne McKinely was named over the weekend during freshman orientation week activities for the entering Class of 1972.

Her court is composed of Patricia Akroy of Green Village, N. J.; Maureen McLaughlin of Barrington, R. I.; Priscilla Carignan of San German, P. R.; and Ruth Donald of Reading, Mass.

Miss McKinely was crowned by Marcia Giovannangeli of Keene, a senior and reigning Miss Keene State College.

Miss McKinely, 20, is a freshman transfer student from Madison College in Harrisonburg, Va. A 1967 graduate of Cheshire High School, she has been active in 4-H Club activities for 12 years, was president of her high school home economics club, sang in the church choir and includes among her hobbies sewing, cooking, ceramics, swimming and most sports.

### Convocation Opens School Year

KEENE, N.H. — Keene State College held its second annual College Convocation today on Fiske lawn, at 10 a.m.

James G. Smart, associate professor of history, and students Donald Therrier of Manchester and Francis L'Hommedieu of Concord.

### WRA Activities

The Women's Recreation Association is bigger and better than ever this year. It exists for the enjoyment of all college women.

Officers elected for the year are as follows: President, Sue Bateman; vice president, Carolyn Keck; secretary, Paula Culley; treasurer, Lauren MacMichael.

Dr. Roman J. Zorn, KSC president, and Dr. Clarence G. Davis, dean of instruction, were the principal speakers. Davis also awarded honors to Keene State students who achieved the President's List and the Dean's List last spring.

Robert S. Campbell, dean of students, honored those KSC students who were named to Who's Who Among Students in American Universities and Colleges last spring.

The invocation was given by the Rev. Fay L. Gemmill, campus minister, while the Rev. Gerard J. Vallee, Newman Center chaplain, gave the closing benediction prior to the recessional back to the library.

The convocation committee is headed by Campbell and includes Dr. Richard E. Cunningham, associate professor of English; Dr.

She represented Connecticut in a food and nutrition project at the national 4-H Club Congress in Chicago two years ago and was a delegate to the national 4-H Citizenship Conference in Washington, D. C., in 1965.

The new freshman queen has a brother David, 24, and a sister Betty Jane, 21. She lives at 1524 Marion Rd., Cheshire, Conn.

### Academic And Administrative News

In an attempt to bridge the communication gap between faculty and student body, the Monadnock this year inaugurates a new column entitled "Academic and Administrative News," a bits and pieces synopsis of departmental data concerning course offerings, educational innovations and group progress.

This year the music department is starting a Stage Band, a 16 piece jazz-dance ensemble. There are several openings for trombone, saxophone and trumpet players.

Dr. Lloyd F. Hays, chairman of the Social Studies Department wishes to announce that with the addition of four new faculty members to the department the course offerings in philosophy and political science have been doubled, offerings in psychology have been increased by 40%, and the department's offerings in geography have been increased by two elementary sections and one elective.

Dr. Ann C. Peters, chairman of the Math Department would like to remind all majors and minors to check copies of the department records posted on the bulletin boards in Morrison Hall and the Science building.

The performing organizations of the Music Department, Wind Ensemble, Chorus and Chamber Singers are already hard at work planning concerts for the coming year.

### Student Ambassador's Report

by Susan Crosby

What is the experiment in international living? The experiment was founded in 1932 as an attempt to answer the most pressing question of our times: "Can people of different nations understand one another well enough to see to it that their governments live peacefully together?"

The Experiment's programs are based on the conviction that one learns best to understand another people and their culture by living among them as a member of a family. Each experimenter has the opportunity to understand and appreciate a new culture by living it, and to develop respect and admiration for the people who have introduced him to it.

The summer program lasts for eight weeks, four weeks of which are spent living with a native family. Two of the remaining weeks are devoted to traveling and seeing all that is heard, read, or dreamed with a brother or sister and other members of the experiment group.

Individual is the all important factor in the success of the experiment. Many directly apply to

the experiment headquarters in Putney, Vermont, while others are financially supported by the community and college as ambassadors.

The many thousands of people who have taken part in the experimenter activities, either as experimenters to other lands or as families who have offered hospitality to visitors from abroad, have proved that through this demanding but rewarding experience the individual may make a significant contribution to the cause of international understanding.

"The Experiment Summer is just a beginning. While its immediate aim is to create a lasting bond between him and his family abroad, more deeply than this, it is a laboratory exercise in human relations. And as such, it has stood up in good stead long after the passports have expired and the snapshots have faded."

## Fraternity News

### Kappa

Kappa Delta Phi would like to announce its 4 top officers for the Fall semester. Elected President, was George Manekas; Vice President, Marty Kadel; Secretary, Tom Burns; and Treasurer, Gary Kernozicky.

The absence of a lot of Brothers on campus is due to the fact that they are working on Kappa House, located at 59 Davis Street. The house has undergone extensive renovations.

Kappa will announce its program of events for the first semester in a few weeks. In the works already is a 2-day Blood Drive which will be held during Greek Week.

Theta Chi Delta has always been in the running athletically and in 1967 it won the overall athletic award given each year by the Inter-Fraternity Council.

Concerning politics, former house father, Brother Levritt Nichols, was narrowly defeated in his bid for the nomination for sheriff of Cheshire County.

Alumni Brother Gary Howard will begin religious studies September 29, at General Theological Seminary in New York City.

Finally, Kappa has assembled one of the most beautiful football teams in Keene State history. The "A" team has such luminaries as Mike Stone, Jerry Gilman, Tom Burns, Dave Brown, Neil Gallagher, Jack Carey and Mike Szot.

The banquet was held in the Dining Room of the Ellis Hotel in Keene at 7:00 on May 18.

### Theta Now Officially TKE

On Saturday May 18, 1968, Theta Chi Delta Fraternity at Keene State College became installed as Lambda Sigma Chapter of Tau Kappa Epsilon.

Theta Chi Delta Fraternity originated in 1954 as an offspring of Sigma Tau Gamma. The fraternity was founded in 1947 as Kappa Tau Gamma, a local fraternity, but its chief objective was affiliation with Sigma Tau Gamma, which was at that time the largest national fraternity in

the educational field. When the Chapter began, there were 22 men in Kappa Tau Gamma, all of whom were accepted into Sigma Tau Gamma. Howard Jackson was the first president of both Kappa Tau Gamma and Sigma Tau Gamma.

The reasons for this change were "the high dues, most of which went to the national office, and the lack of advantages of national membership to warrant dues paid."

Lambda Sigma's house is owned by Keene State College. The College plans to use the property for another purpose within the next year or two; so we are in the process of acquiring a new one.

The Banquet was held in the Dining Room of the Ellis Hotel in Keene at 7:00 on May 18.

Paul R. Charpentier, Thomas N. Richard, George A. Blown, Sumner P. Harris, George W. Nostrand, John L. Mizaras, Barry D. Osborn, John B. Kolb, William A. Marcello, John B. Bowman, Edward F. Forbush, Richard F. Frahn, Steven P. Groves.

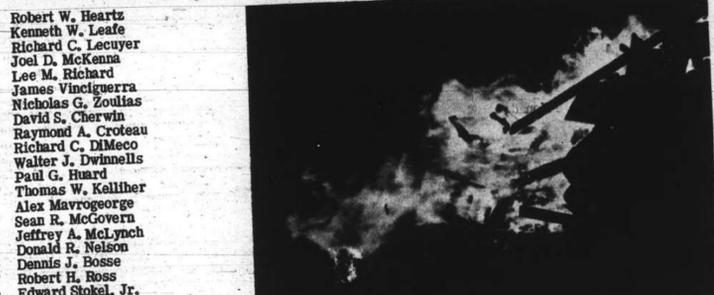

CHAPTER MEMBERS: Paul R. Charpentier, Thomas N. Richard, George A. Blown, Sumner P. Harris, George W. Nostrand, John L. Mizaras, Barry D. Osborn, John B. Kolb, William A. Marcello, John B. Bowman, Edward F. Forbush, Richard F. Frahn, Steven P. Groves.

CHAPTER ADVISORS: Board of Control - Mr. Christopher Barnes, Mr. David Leinster, Dr. Harold Goder.

OFFICERS: Prytanis - Paul R. Charpentier, Epipratanix - Thomas N. Richard, Grammateus - George A. Blown, Histor - Sumner P. Harris.

WELDING HOT SCEPTER — Orientation torch to the Freshman bonfire, the finale of a successful week of freshman activities.

FLAMING BIER? — It's the death of freshman anxieties as the freshman bonfire works its way to ashes.

Cryosophylas - George W. Nostrand, Hypobetes - John L. Mizaras, Pylortas - Barry D. Osborn, Hegenlou - John B. Kolb

all freshmen and a welcome back to all returning upperclassmen, and wish you all a successful semester.

### Alpha News

The brothers of Alpha Pi Tau Fraternity have been hard at work on their new fraternity house which was purchased by the brotherhood last March. Everything is going according to schedule, but brothers are still devoting their free time to adding the final touches.

The new house father at Alpha House is Brother Tony Maturio. Tony, a teacher and head football coach at Fall Mountain Regional High School, is a 1967 graduate of KSC.

Alpha's Executive Board for first semester 1968-69 is: Bob "Frenchy" Cloutier, president; Peter Kukish, vice-president; Ron Neronsky, secretary; Manny Oliveira, treasurer; and Doug Howe, sergeant-at-arms.

The brothers of Alpha Pi Tau would like to extend a greeting to

## DON'T STOP NOW

The changes that have taken place on this campus are many and great. The college has made definite advances toward closing the gap between administration and student body.

The new handbook, the orientation program, registration improvements and IBM change over, the increase in administrative staff - all are intended to improve campus life, and communication between the college and the student.

This is not to say, however, that the student body can rest easy now. On the contrary, we have a greater responsibility now than ever before to prove that we CAN communicate, both with ourselves, and with the college.

The election of three student members to the College Senate is perhaps the greatest advancement made, and WE didn't do it, the college did. If we are to hope for further campus improvements, we must concentrate on acting as mature and responsible students, exercising what rights we have for the purpose of founding new rights, and a better campus. The three students that go to the College Senate will need the help of the entire student body. Let them know what you think . . . and support them; they, and your Student Senate are your ticket to a better college life.

## To The Editor

Dear Editor:  
 The purpose of this letter is to alert the faculty and the administration as to my concern regarding the unorganized state that the K.S.C. "Special Education Department" is in. Many students, including myself, came here with the hope of attaining a major field of study in teaching the mentally retarded. Unfortunately, after several semesters here, I discovered that neither a major nor minor was offered in this area. Upon further investigation I discovered a lack of communication and understanding among the faculty concerning this issue.

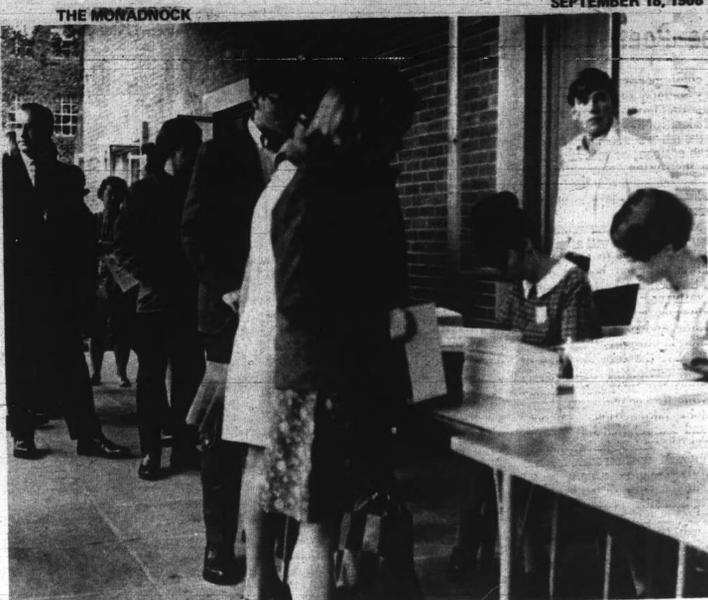

It is my belief that in the past there was a major offered in the field of mental retardation. If this is true, as I believe it to be, then what happened? WHY isn't there a major or minor offered in this area? Certainly with increased student enrollment there would be an increase in interest about Special Education. At least enough to develop a minor in this field.

I hope this letter will demonstrate to the administration that there is indeed interest concerning this problem. I am sure that they will acknowledge the fact that there is certainly a need for teachers for the mentally retarded. Craig Wheeler '71  
 Gate Street  
 Keene

## Beware Of Sociologists, Warns Etzioni

In an article in Sunday's NEW YORK TIMES, Columbia University's Professor of Sociology, Amital Etzioni points out that Sociology students have been among the leaders in student demonstrations throughout the world. This prevailed not only at Columbia but also at the demonstrations, strikes, and sit-ins at Berkeley, the Free University of Berlin, the Sorbonne, and the London School of Economics. Of the 71 graduate students arrested at Columbia, 21, the largest number from any department, were sociology students. Sociology's role was also symbolized by the capture of Fayerweather Hall, the sociology building, by last spring's demonstrators.

Another article discusses some of Etzioni's professional discoveries. The professor claims that soon married couples will be able to decide whether they want a boy or a girl and then actually are successful. Just how this will be done is, of course, a trifling matter and Etzioni does not concern himself too much about it. Scientists have been experimenting in this area with rabbits and frogs and have arrived at some surprising conclusions. Science will tell married couples how it's done and

NEVER ENDING -- Freshman students and their parents are shown standing in line on the Library steps for freshman registration. A record 485 new students were welcomed to KSC this fall.

## Dead Actor Leaves Word On Smoking

From the Keene Evening Sentinel

DEAD ACTOR LEAVES WORD ON SMOKING

NEW YORK (UPI) -- Television actor William Talman, who died of lung cancer Aug. 30, left a special legacy in the form of a one-minute taped message about smoking, which is now being televised by stations across the country.

The American Cancer Society (ACS) said Thursday that Talman, who smoked three packs of cigarettes a day during most of his adult life, knew before he died that he had an incurable case of lung cancer.

The ACS said he asked the society to distribute his message saying "I want to do what I can to leave a world free of cancer for my six children."

Talman, best known as the prosecuting attorney who was defeated every week on the Perry Mason Show, recalled that role and life's last battle in his recorded message.

"You know, I didn't really mind losing those courtroom battles," he said. "But in a battle now I don't want to lose at all because if I lose it means losing my wife and those kids you just met. I've got lung cancer."

"So take some advice about smoking and losing from someone who's been doing both for years. If you haven't smoked - don't start. If you do smoke - quit. Don't be a loser."

## K.S.C. Students In Who's Who

Jayne Koperstynski

This year Keene State College is honored to have fourteen of their top students entered in "Who's Who Among Students in American Universities and Colleges." This book consists of the outstanding stu-

minute now, so the professor has gone ahead to study the ramifications to society of this new type of sex control.

There will be an increase in the male population, he tells us, since most parents want boys. The two party system will come to an end since more men vote Democratic than women. And, surprise of surprises, there will be more bachelors! Because of male preponderance, society will take on "some of the rougher features of a frontier town."

Anyone for "Gunsmoke 404"? -- to be credited under Sociology of course.

## Campus Activities

By Dennis Clark

Wednesday, September 18  
 7:00 p.m. Class Meeting 1969 - SA 102  
 7:00 p.m. Republican City Committee, Library Conference Room

Thursday, September 19  
 9:00 a.m. - 4:00 p.m. College Senate Elections for faculty and administration in the Library Conference Room

7:00 p.m. Special meeting of Student Senate to discuss method of choosing student representative to the College Senate

7:00 p.m. Committee Meeting to organize a campus wide talent show in October. Meet in SA 102. Anyone interested in promoting a benefit performance to raise money for the Saxton's River Summer Project Scholarship Fund is encouraged to attend the meeting.

7:30 p.m. Film: A STUDY IN TERROR, SA 101. This film is a color presentation of a Sherlock Holmes thriller. Sherlock is pitted against the infamous "Jack the Ripper" . . . 94 min.

Saturday, September 21  
 8:00 - midnight Dance, Wheelock Elementary School gym - Sponsored by Social Council.

Monday, September 23  
 7:00 p.m. Meeting, Student Senate, Library Conference Room.

Tuesday, September 24  
 7:30 p.m. Film: REQUIEM OF A HEAVYWEIGHT. This film is a powerful study of an ex-prize fighter who because of age finds himself looking for anything that will provide an honest living without losing his sense of dignity. This movie features an excellent cast of characters including Anthony Quinn, Jackie Gleason, Julie Harris, and Mickey Rooney.

It is unfortunate for the student body of KSC that due to the construction necessary to convert the Spaulding Gymnasium into a Student Union Building, the only place suitable to hold a dance on this campus was eliminated.

The renovation of the gym which began in August, after the removal of Alpha House, will not be completed until February. The occupancy of this building will be the biggest step in putting the entire campus on the same side of Main Street.

Due to the effort of the Dean of Students, Robert Campbell, a place was found in which to hold dances until the opening of the new building. After investigating several possibilities and discussing the matter with the Social Council, Mr. Campbell chose Wheelock Elementary School on Adams Street as the most practical location because it is within walking distance. The student body apparently didn't agree with Mr. Campbell's choice as the attendance at Friday night's dance was significantly lower than usual. This was probably for the best as the Wheelock Gym is about half the size of the old Spaulding Gym, which was seldom large enough to accommodate students attending dances.

dents on campus throughout America. The seniors who have been selected from Keene represent six of the Northeastern states.

A joint committee of student leaders and faculty members selected the students who they felt best represented Keene State College. To qualify for "Who's Who" the student must excel and be sincere in scholarship, both lead and participate in co-curricular and academic activities, be of service to the school, and most important - show promise of future usefulness to society. You, the members of Keene State College, can be proud to have these students in the Senior Class of 1969.

From New Hampshire:  
 Judith A. Purdy -- Keene-secondary education, biology major.  
 Summer P. Harris -- Walpole - liberal arts, biology major.  
 Mrs. Veronica M. Ivano -- Rindov -- Dublin - secondary education.

SEASON'S FIRST -- Lawton P. Bourn Jr., editor of the 1969-90 Monadnock, meets with his new staff for the first time. Fifteen new students and about 20 upperclassmen showed interest in trying out for the paper.

## Free Poetry Society Is Reactivated

As chief spokesman for the Free Poetry Society, I feel a need to introduce this new group in detail to the students of Keene State College, even though we are not affiliated with the college, or with any established institution. Our philosophy and aims are such that the interest of students everywhere is of great concern to us.

We are a performing group, and our material is, and will always be, poetry. We believe that the simple exposition of good poetry of all forms through dramatic presentations delivered to a wide variety of audiences can be utilized as a dynamic approach to the easing of tension in our world.

Ironically, the terrible pace of rapid communication that propels our society has intensified alienation within it. The individual, bombarded by information from outside, and fearful that information from INSIDE will be just as quickly disseminated and circuted, has ultimately become afraid to know himself. The citizen on the street, in his home, or at his work, has become suspicious of even his own dignity. The resulting tension has reached a pitch that long ago exceeded the danger point.

Politicians, economists, sociologists, and representatives of other professional fields all see the situation in terms of a vast set of problems that must be solved, and theory after theory gets voiced on how to solve them. What is being overlooked by these active thinkers, or so it would seem, is that problems are never solved. Isolated bottlenecks can be alleviated, but problems are never solved.

Inherently, the alienated individual senses this, and he has become mistrustful of problem-solvers of all kinds. With the latter's every attempt, tension inten-

sifies, because the dignity of the individual, in the problem-solvers' theories, is rarely, if ever, of prime consideration. More often it is an afterthought, considered a secondary "problem," or even pushed aside as a luxury we haven't time to consider under the pressure of more "basic" issues. It is little wonder that the arts, especially poetry, (which serves poorly as mere decoration) should not be taken seriously by our leading citizens, our problem-solvers, as a potent force.

A good poem reflects something of a total three-dimensional image (including roots, causes, purposes, and consequences) of the dignity of man. Every attempt at art of any kind is in some way an expression of human dignity. A belief in one's own dignity is a profound step toward freedom from alienation. It is precisely toward instilling such a belief in everyone who sees our presentations that we of the Free Poetry Society are committed. If a man cannot trust his congressman, his church, his social worker, his teachers, or any of the many "labeled helpers" to help him live unalone, without fear, he can certainly trust poetry. Whether he will or not, the Free Poetry Society is obliged to give him the choice, and intends to give it with as much effect as possible.

Being still in our building stages, we are reluctant at this time to expand our membership. We would be grateful and encouraged, however, to see the formation of other groups like ours, and we would be happy to cooperate with such "sister groups" in working toward common goals. If anyone is curious about the Free Poetry Society, or believes they have information that may help us, they may contact me, or my first assistant, James McDonald.

## Intramural Football Schedule

	September 18 - 26	5 p.m.
Wednesday - 18	George's Gyms A vs Alpha A	
Thursday - 19	Married Students vs Kappa B	
Monday - 23	TKE C vs Alpha D	
Tuesday - 24	TKE C vs TKE D	
Wednesday - 25	Kappa A vs George's Gyms B	
Thursday - 26	Butch's Bombers vs Kappa B	
Wednesday - 25	TKE B vs Kettles	
Thursday - 26	TKE A vs George's Gyms A	
Thursday - 26	Married Students vs Alpha B	

Flag Football instead of Touch Football.  
 Rules changed somewhat.  
 Thus, more scoring possibilities.  
 Anyone interested in refereeing, see Barney Kolb, c/o TKE.

AUTUMN IN NEW HAMPSHIRE -- Some autumn days are a little hazy, but often they are crystal-clear when the fall colorama unfolds in the Granite State. Wickwas Pond lies just off N. H. Route 104 in New Hampshire's Lakes Region. Those are hardwood trees, the ones which produce lavish color, at the right and center in this picture, and evergreens, Pine in this instance, at the extreme center left. Both hard and softwoods abound in the Granite State which is 84% tree covered. (Photo by Eric Sanford)

Architect And Engineer

## Student Union Information

What we do not need at Keene State College is a "Failure to Communicate." Everyone should have a chance to be involved in campus life and activity. The committee sign up form was placed in this week's "Monadnock" for this reason and also to allow everyone a chance to build the Union into a vibrant, living organism. The Student Union is attempting to provide a complement to the academic educational process by offering co-curricular activities. We expect to have an expanded, diversified program at the Union in the upcoming months. These include special symposiums, film features, dances and recreational activities to name only a few. With the completion of our new facilities, this program will have more room in which to grow.

However, to really make the Union move, we need interested students to help. Students must fill the committees to offer new ideas and to give direction and definition to Union programs. The door is always open to new suggestions and we would like to discuss new programs with the students.

### FALL FOLIAGE

CONCORD -- Throughout the Granite State there are indicators aplenty that her famous fall foliage extravaganza is well on the way and will burst into peak elegance in northern areas close to the latter part of the month.

The Office of Vacation Travel (OVT) reported today observers from all areas of New Hampshire are in agreement the color change in the hardwood trees is "right on schedule with some evidence that it's ever so slightly ahead of nor-

mal if anything."  
 This would mean color would be very strong in the upper third of the State the weekend of Sept. 21-22 but probably not peak until the last two days of the month and very first ones of October. That same weekend should be a prime one southward through the White Mts. foothills. Color should peak in the southern half not earlier than the first weekend of October and remain very strong for a few days past the Columbus Day weekend," OVT said.

lectured at Stonehill College and Seton Hall University and was a teaching fellow at Rutgers and Boston University. He is married and has three children.

Stephen P. Hobart, lecturer in Geography received his B.A. from Carrol College and is presently a doctoral candidate at Clark University. He was the holder of an NDEA Fellowship, is a holder of the National Council for Geographic Education award for excellence in geography. He was a tutorial assistant at Clark University.

Charles E. Hornbeck is instructor in Philosophy. Mr. Hornbeck received his B.A. from Phillips University and he is now a Ph. D. candidate at Emory University. A teaching fellow at Emory, he is married.

Virginia A. Irvine, instructor in Physical Education is the holder of a B. S. from Gettysburg College and an M. S. from the University of Washington. She was a teaching assistant at the University of Massachusetts and Washington and has public school teaching experience. She was gymnasium judging chairman for the Nevada Board of Woman Officials.

Michael D. Keller, assistant professor of History, holds a B.B.A. degree from the University of Wisconsin and M.A. and Ph. D. degrees from the University of Arizona, where he was a teaching assistant. He held a Woodrow Wilson Doctoral Fellowship and a NASA contract. He is married.

Frederic G. Layman, assistant professor of Geology, received his B.A. from Lafayette College and his M.S. and Ph. D. from Lehigh and Harvard respectively. He has previously taught at the University of Pennsylvania, Bryn Mawr, Lehigh and Harvard.

Dr. Layman was a geologist with the Pan American Petroleum Corp., curator of mineralogy at the Academy of Natural Sciences in Philadelphia; and held an NSF grant for geological investigation. He is married and has two children.

Miss John Julia McMahon, assistant professor of Education, is the holder of a B.S. from East Texas State Teachers College and an M.A. from George Peabody College for Teachers. She was associate professor of education at New Mexico State University and has taught at East Texas State College and Montana State Teachers College.

She was resource person and recorder at the Association for Student Teaching Conferences and at ACEL, ASCD Conference, U.S. National Committee for Childhood Education.

Mrs. Jacqueline M. Oberfrank, instructor of Speech and Dramatic arts, received her B.A. from Florida Southern College; her M.A. from the University of Maryland, and has done further graduate study at the University of Iowa. She was director of Theatre at Salisbury (Md.) State College. She is a member of Alpha Psi Omega and was awarded the Outstanding Drama Student Award at Florida Southern College.

Dr. John H. Park, associate professor of Spanish received his B.A. from Emory University, his M.A. from the University of the Americas and his Ph. D. from Indiana University. He was associate professor of Spanish at Wisconsin State University and has also taught at California Western, the University of Wisconsin and Monash University in Australia. He is married and has four children.

Clyde W. Shepherd Jr. an assistant professor of Education possesses a B. A. from Lynchburg College and a Ph. D. from the University of Virginia. Besides two-year doctoral fellowships he qualified for the Elks National Foundation Grant, the Nemours (DuPont) Publication Grant, and as a consultant in special education to Page County (Va.) Public Schools. He is married and has three children.

Mark J. Sherman, instructor in History, holds a B.A. from Hofstra and M.A. from New York University. He was a teacher of common branches in New York Board of Education and taught history and government at USAFL. Thomas M. Stauffer, assistant professor of Political Science re-

also in this field. The first regular meeting of the sorority will be held on Monday, Sept. 23, at 7 p.m. in Blake House. Regular and prospective members are invited to help plan NERP weekend, new student initiation, and to discuss whether to join national AHEA or remain a college chapter.

Jean B. Fitch -- Wilmington --

received his B.A. from Wittenberg University and his M.A. from the University of Denver. He is a doctoral candidate at the University of Denver and also studied at the Freie Universitat Berlin in West Germany. He was visiting professor at Regis College, Denver, and an assistant professor at Radford College in Virginia.

Glenn H. Theulen, assistant professor of Physical Education received his B.S. from Buena Vista College and his M.S. from Indiana University. He is married and has two children.

Ronald A. Tourgee returns to Keene as an Assistant Professor of Mathematics. He attended the University of Rhode Island for his B.S. and M.S. degrees and is a doctoral candidate at the University of Massachusetts. Mr. Tourgee taught at Mt. Holyoke College for the past 2 years while pursuing doctoral studies at UMass.

Mr. Tourgee holds membership in honorary societies Tau Beta Pi, Phi Kappa Phi. He is married and has three children.

John P. Zanes is an instructor in English. He attended the University of New Hampshire where he received his B.A. and is currently a Doctoral candidate at the University of Texas. He was assistant professor at the University of New Brunswick and a teaching assistant at the University of Texas. He is married with three children.

Employed on a part time basis is Mrs. Emma Riehl, instructor of English, Mr. Guy Burrill, lecturer in physical science, Mr. Robert Cummings, instructor in music, Mrs. Carol Nell, lecturer in speech and Mrs. Barbara Lamela employed in the mental retardation clinic.

The two graduate assistants, both employed in the Science Department, are Mr. Richard Grant, biology and Mr. Howard Larracey, physical science.

Tri-Beta

Tri-Beta and Biology Club will meet this evening at 7:30 in Science 305 for the first time this year under the new and progressive leadership of Sumner Harris. The agenda will be an all-new approach to all walks of campus curricula. The only requirement that an interested student need fulfill is that he be interested in biology and related sciences. Activities in the coming year will include discussions and practical applications in taxonomy, bioplastics and animal husbandry on a laboratory scale. A falconry club will hopefully be organized to study the possibility

secondary education, English major.  
From Massachusetts:

THORNE ART GALLERY

(Continued from page 1)

paintings were on view at Thorne last year. Thon will offer "Lenten Procession" and "Night on the Palatine."

Other Midtown Galleries artists whose works are on display are Emlen Ething, Edward Betts, Isabel Bishop, Margit Varga, Zoltan Sepssty, Roy Moyer, Jason Schoener, Doris Rosenthal, Fred Meyer, William Palmer, Fred Nagler, Charles Colner, Waldo Peirce (co), Hans Moller, Julien Binford, Stephen Etnier, Maurice Freedman, Richard Mayhew, Siegfried Reinhardt and Robert Vickery.

The exhibition opened Saturday, Sept. 14, with a reception given by the Friends of the Thorne Art Gallery from 3 p.m. to 5 p.m. Mrs. N. Michael Plant of Keene was chairman of the hostess committee for this opening reception of the year. Serving with her was Mrs. George Bauer, Mrs. George Holbrook, Mrs. Robert Bennett and Miss Muriel Cooke, all of Keene. Miss Ellen Faulner of Keene is chairman of the Friends of the Thorne Art Gallery, a group formed to promote the gallery and art appreciation in the area.

The exhibit was arranged and hung by Carl B. Wells, assistant professor of art at Keene State College and coordinator of the Thorne Art Gallery. The gallery, entering its fourth year, was given to the College in 1965 by Mrs. Robb Sagendorph of Dublin in memory of her mother, Mrs. George A. Thorne of Chicago.

The gallery is open to the public, free of charge, from 2 p.m. to 4:30 p.m. Tuesday through Saturday and is staffed by student attendants.

Of the 31 paintings, 25 are done in oil, two in lacquer, two in tempera, one in oil on wax and one in oil and gouache. Prices of the paintings range from \$450 to \$4,800.

FOOTBALL Although football is considered an excellent "character builder" for youths, it can result in bodily impairment if a boy is not in good physical condition. Secure a medical clearance from your doctor before allowing your child to engage in this rough contact sport. Also, make certain he has the necessary equipment—helmet, shoulder, hip, thigh, and knee pads, and shoes—to afford maximum protection. Boys engaging in this sport should play in groups of similar size and age.

HICCUPS Practically everyone experiences an attack of hiccups at one time or another. While ordinary hiccups are not considered a medical problem and usually subside of their own accord, you may obtain faster relief with such remedies as sipping water, breathing deeply, holding your breath, or deep exhaling and inhaling into a paper bag. If hiccups persist for protracted periods of time, consult your physician.

POLITICAL ACTIVISTS -- In the background is president Donald Nelson conducting the first meeting of this year's Student Senate. Where were you when this picture was taken?

### Student Senate News

In an effort to expand student participation in the college's internal affairs, the Faculty Senate in May of last year voted to include three students in the previously all-Faculty Senate. The boldness of such a move, required the consent of the Board of Trustees of the University system; this was accomplished this summer by President Zorn who expressed considerable confidence in the idea, as did the Board of Trustees who will now be carefully watching this new form of student involvement. The Student Senate now is faced with a problem, the Faculty Senate left the selection of the three students who will have voting privileges equal to the faculty members. To the Student Senate, by virtue of its constitution. Its first meeting Monday, Sept. 9, 1968, the Student Senate considered numerous proposals, none of which were readily accepted. How-

ever, as it stands now, at least one will be selected from the Student Senate, another may be elected by nominations from the student body through their respective class meetings, Mon. - Wed. Sept. 16, 17, 18. The third person's selection will be discussed at this Thursday's Senate meeting Sept. 19. The FINAL selection will be at the first official Senate meeting Mon. Sept. 23, if possible. It is at a time like this when all those students who complained about students' rights and student involvement in college affairs, should speak up! Tell their respective class Senate members who they want to represent them in the Faculty Senate. The opportunity is there. Do we, as students, have three students (backed by an eager and willing student body) who can represent them before the faculty? Student Senate President Don Nelson

### Three Students On College Senate

In a series of down to the wire meetings last May, The Keene State College Senate revamped its constitution and elected to extend full voting privileges to three students. This move was approved by the University Board of Trustees this summer where it was presented and defended by President Zorn. This move places Keene State College in a small minority of American Colleges and Universities where students have a direct role in implementing new policy or changing existing ones. It is the only one of the three campuses of the University of New Hampshire where such policy exists. Plymouth and Durham have yet to extend these rights to their students. As the Senate now stands, there are twelve faculty members elected at large from the faculty, fourteen more faculty members, one elected from each academic department, the president of the college, the deans of instruction, administration, student personnel and three students.

### NATURE'S WAY

Time may change the ancient proverb about killing the goose that laid the golden eggs into a warning about geese that lay edible eggs. Recent discussions of plans by both the United States and Russia to exploit possible oil pockets on Georges Bank brings the subject to mind. Fourteen nations fish on Georges Bank, a huge underwater shoal that lies 85 to 150 miles off the New England coast. The annual fish catch there by all nations averages roughly two billion pounds. In a world sure us that three-quarters of the human population goes to bed hungry every night tampering with a resource that has produced abundant protein through four centuries seems foolhardy. The mention of oil puts a gleam in the human eye. The gleam, however, glistens only in a well-fed eye. It reminds one of the comment that when the western hemisphere was discovered the Spanish seized

SEPTEMBER 18, 1968 on the radar scope and time their forward progress in order to dodge other boats. A sprinkling of oil well platforms over the bank—plus many underwater plugs as tall as telephone poles which mark drilled wells not yet ready for exploitation—would make many square miles of bank unavailable to trawlers. Enough oil wells on the bank, and there surely will be enough if everyone gets into the act, would seriously interfere with a fish harvest that accounts for 40 percent of the United States fish landings and 12 percent of the world's supply. The conservationist's concern in this tangle of trawl cables and oil platforms centers upon the renewable resource: fish. Oil is among the more destructive chemicals that can reach a fish bank. If there are accidents -- and where human judgment and skill are concerned, there always will be accidents -- permanent damage can be done to the fish populations of Georges Bank. The real loser in such destruction is neither the fishing industry nor the oil industry. Fishermen always can do something else for a living. The real loser will be the hungry human who cannot eat oil.

The public guardian on Georges Bank is the same federal agency that presided over the destiny of Pacific salmon. Any research into what has happened to the salmon since the days that it ran upstream against another money-power group -- the electric power plants and their dams -- is not reassuring.

### Safe Harbor

For 120 years this famous lighthouse has guided thousands of ships into the safe port of Biloxi. Located on scenic U. S. Highway 90 overlooking the Gulf of Mexico, this is one of the most photographed landmarks in America. Legend has it that this lighthouse was painted black when Lincoln was assassinated. Mississippi Gulf Coast history dates back 300 years, yet today it is one of the South's most modern seashore resorts. Known as "America's Riviera", it offers visitors complete vacation facilities, including a 28-mile long beach, fine accommodations, excellent restaurants and year round golf.

WEDNESDAY, SEPTEMBER 25, 1968

## Pray Together, Stay Together Main Theme Of Convocation

Introspection Stressed -- Keene State College President Roman J. Zorn addressing the students and faculty at the second annual all-college convocation.

Students, faculty and administrators must pool their leadership resources and work together if the challenge that society has given higher education is to be met; so spoke President Zorn and Dr. Davis at last week's convocation. Dr. Zorn said student unrest affords colleges and universities an opportunity for "redeveloping vitality and relevance" and makes it necessary for administrations and faculties "to critically examine, and to really examine, what we are doing."

Dr. Davis, dean of instruction, said "only a small part of student criticism is groundless or capricious" and "no matter what else we do as educators we must find time and take time -- make time if we must -- to listen to you in ones and twos, as well as to your organizational representatives."

Speaking to some 550 persons at Keene State College's fall convocation, Davis said: "We must expose ourselves as human beings and I think this is good, not only for the administrator and faculty member, but for the student as well. If we all do this in concert, in openness, in intellectual honesty, I am sure amazing things will begin to happen. The solving of problems means hard work, Davis stressed, "and if the going seems easy it's probably because you're going downhill."

President Zorn traced the growth over the past few years of student representation in campus government, pointing out that in the last three years students "have been welcomed into participation on 11 policy and review committees above the original four" with an accompany, we afford to insure against tokenism. "Because a contemporary issue is student power, let me say that there is no valid reason why students should not exercise power and responsibility," he said. "Obviously, students constitute a major sector of the academic community and they deserve a meaningful role, along with -- but not displacing -- faculty and administration."

Keene State College now has the means for "open discussion and resolution of campus problems, President Zorn said. And "every major sector of the college has its

potential to contribute and its means of participation. "We hope and expect that leadership will come from the faculty, students and administrators," he said. "We want it to be as mature and knowledgeable as possible, and that we can achieve mutual tolerance of conflicting viewpoints with a view to rational solutions to the many issues that ultimately will arise in a vital and lively intellectual environment." Dr. Zorn called for positive and constructive approaches. "Now we must reassess our educational philosophy, adopt new methods or adapt old ones, and revise curriculums and strengthen learning resources," he said. "Unless we meet these problems, higher education will be unworthy of its name and its honored status in American society." However, colleges must not

(Continued on page 7)

### KSC Show To Benefit Ghetto Students

On October 12, 1968 Keene State College will make history -- whether it's good or bad is up to the student body. Mr. Carl Wells has obtained, for the Thorne Art Gallery, an exhibit from the Saxton's River Summer Project in Vermont. The project involves a group of talented young people from the ghetto areas of New York City. The students spent the summer painting and producing other works of art of remarkable quality. Many of these works will be on display at the Thorne Art Gallery beginning October 12, 1968.

### KSC To Have Creative Theater

A newcomer to the faculty at KSC is Mrs. Jacqueline Oberfrank who will teach speech and direct the theater activities. She brings with her much experience. An active member of the national honor society for college and university theater, Alpha Psi Omega, at Florida Southern College, she was voted drama student of the year. Following graduation, she accepted a teaching position in Maryland. At one point during her

(Continued on page 7)

### Seeking Curfew Change

At the end of last semester, five students, James MacDonald, Don Black, John Richards, Steve Skibnosky, and Marilyn Treat, met and formed the coordinating committee of the Organization for Independent Student's Action. It was decided at that time that one of the major violations of students rights is the present women's curfew. Sept. 17, Marilyn Treat drew up a petition that recommended the following changes for women's hours: 12:00 weekdays, 2:00 weekends, 1:00 Sundays for Freshmen, and no curfew for upperclassmen. She then presented this petition to the Junior class at the first class meeting, saying that "the administration has, for too long now, attempted to take on the role of a new parent. For many reasons, KSC has become, for most students, an extension of high school... the student body does not need an extra parent; the women of this college (and isn't it nice they call us women and not girls) don't need a curfew, rather they need the opportunity to learn self discipline, which is perhaps one of the most important parts of the college experience. The administration has made an obvious denial of this opportunity with their women's hours, and it is now the responsibility of the student body to bring this to the administration's attention."

After speaking to the Junior class, Martha Nischelm and Miss Treat circulated the petition and received the signatures of all those in attendance. Supplementary copies of this petition were made out and put into circulation by Miss Nischelm, Frank L'Honniddeu, Steve Skibnosky, and John Richards. So far, most students are not only in favor of the recommended change, they are supporting it enthusiastically. Judy Henderson, a residence counselor at Monadnock Hall said, "This is a change that the students have wanted for a long time, and I intend to support this

(Continued on page 7)

### NOTICE

The Monadnock can use your help. There will be a full Staff Meeting on Thursday. We can only have 8 page issues if you people are willing to contribute material to fill the 8 pages. Try helping your college paper as well as yourself. The meeting will be in the Monadnock office in the Student Union at 8:20 P.M.

### New Registration Program Reviewed

By John McEntee

In an interview with the Dean of Administration, Edward F. Pierce, the subject of the registration program came up and he commented on some of the more important points. Dean Pierce was optimistic about the new program. Compared to other institutions, KSC had relatively few of the many problems associated with a major system change such as that of Data Processing. Regarding students finding themselves at the end of the line, it was noted that this is always a problem at any college or university. Comparing the new program with the old one, it was noted that a minimum of forms was the dominant feature. In previous years,

cards with four different sections had to be filled out, one section for the advisor, another for the switchboard, and a third for the academic deans. This problem was eased by using a carbon paper form. The use of the pink IBM cards eased another area of inconvenience in former years. Previously labeled and distributed, the punch cards spared student and faculty member alike the trouble of establishing class schedules. The new method does nothing new but in shorter time and with great convenience to all. Future ideas are being formulated such as pre-registration, but the advances of the present are certainly an improvement over previous years.

### Nashville Little Symphony To Appear Here October 3

The Keene State College Concert & Lecture Series will present its first offering of the 1968-69 year on Oct. 3 when Thor Johnson and the Nashville Little Symphony appear at the Keene Junior High School Auditorium at 8:30 p.m. The Nashville Little Symphony, consisting of 20 musicians, was formed in 1967 when Johnson accepted the post as music director and conductor of the Nashville Symphony. Johnson had been conductor of the Chicago Little Symphony for eight years previously. The Nashville Little Symphony includes flute, oboe, clarinet, bassoon, horn, trumpet, trombone, harp, percussion and strings and numbers in its repertory Baydn's Symphony No. 6 in D Major, Ravel's Introduction and Allegro, Mozart's Adagio and Rondo for Violin, and Stravinsky's Danse Concertantes. Most of the musicians have solo parts. KSC students may attend by ID card, while tickets for faculty and staff and high school and other college students are 50 cents. Adult admission is \$1. Tickets will be sold at the door only and there are no reserved seats. The presentation has been arranged by the KSC Concert & Lec-

ture Committee headed by Richard H. Congdon, professor of education at Keene State College.

### KSC Hosts Japanese Educators

A group of secondary school teachers from Japan will visit the Keene State College campus Wednesday, Sept. 25. The 40 teachers are touring the United States for the first time under the Experiment in International Living project. The two-month tour was arranged to enable the visitors to observe teaching methods and customs in the United States. The group, which will be hosted at KSC by Dr. Muttaniyil E. Idicula, assistant professor of education, will visit classrooms, talk with teachers and students and tour the campus with the help of student guides. The Japanese teachers will be on campus most of the day, and will have lunch at the KSC Dining Commons.

Receiving Award--Roger A. Goldsmith, one of 14 KSC students elected for inclusion in this year's publication of Who's Who Among Students in American Colleges and Universities, is shown receiving his certificate from Robert S. Campbell, Dean of Students at last Wednesday's convocation. Mr. Goldsmith was one of about 15 students in attendance at this all-campus event.

# Fraternity News

## Alpha Marks 40th Anniversary

Alpha Pi Tau is proud to announce that September 28, 1968 will mark the 40th anniversary of its state charter as a fraternity. Founded upon Fraternism, Scholarship, and Service, it is our hope that we, the brotherhood of Alpha Pi Tau, can continue to uphold the record our fraternity has maintained.

In keeping with tradition, the brotherhood serenaded the female students on campus. It is hoped that all girls enjoyed this brief display. The brotherhood enjoys singing to those of the opposite sex.

Alpha won its intramural football game over an independent team, George's Gym. Both teams played a fine game, the difference being a fine 15 yard touchdown pass by Peter Marter, caught by Tay Dufour who DUCKED in for the score.

Alpha B was beaten by a surprisingly good TKE C team by the

## Kappa

The Kappa "B" football team won its opening game over the Married Students "A" team last Thursday by a score of 8-0. Quarterback Erney Burley played a fantastic game, completing over 98 percent of his passes. The winning T.D. was scored when Brother Burley threw to end Steve Stefanik. For the 2 point conversion, Brother Stefanik quarterbacked for the married students, was overwhelmed by the "Monster Men" defense of Kappa "B," and just couldn't get started.

In other sports news, Brother Dave Brown, head line coach for Monadnock Regional High School, posted his first upset win over Bishop Gurton High from Nashua, by a score of 25-14. This is his first win on the road in an undefeated season.

The fabulous Kappa Band opened Saturday night at Dino's Horse shoe Club. Brother's George Manekas, Dave Anderson, Mike Szot, and Ted Miller, will be playing on weekends all summer.

Finally, Brother Kevin (K.S.C. Fats), Coriveau received a check from home last week; now he'll be able to buy that can of Right Guard he's wanted for such a long time.

## Sigma Pi Epsilon

The first meeting of Sigma Pi Epsilon, the literary fraternity was held for the purpose of electing officers and an editor for "The magazine without a name." The following people were elected: President: Jim McDonald  
Vice Pres: Donna Citro  
Secretary - Treasurer: Audrey Evans  
Social Council Rep: Maisha Gessner

Joe Citro was given the honor and hard job of editor of "The magazine without a name." It should be a great magazine this year.

Ernie Hobert brought up the question that in the past the literary magazine had no specific name. The group shared his feeling that the magazine should have a permanent name. Anyone have any suggestions?

Anyone who has any poetry or fiction that he would like to have considered for publication in "The magazine without a name" please leave them at the Student Union desk to be placed in the Sigma Pi Epsilon mail box. The next meeting will be held on Wednesday, October 2, in Morrison 88 at 7:30 p.m. Anyone that is interested or curious is welcome.

drain before entering school. The breakfast table was adorned with folded napkins and silver rings. Plates were filled with French bread or traditional dark rye and pots were brimming with homemade strawberry, rhubarb, and orange preserves. The children enjoyed a bowlful of a thick flowing and sour tasting type of milk topped with heaps of brown sugar or a dish full of old American style Kellogg's Corn Flakes. Karen joined my mother and me for a cup of strong black coffee and toast.

While I attended to clearing the table and washing the breakfast dishes, my mother would be getting the two oldest children ready for nursery school. By the time things were all spic and span we would take the children to school and have the rest of the morning to do household chores, shopping, etc. I can say one thing for Danish housekeepers - everything is immaculate. There is dust cloth or mop for every need. Around 11:00 a.m., we often had a cup of tea and some of those delicious Danish pastries. They are every bit as delicious as they are reputed to be. This boosted everybody's energy for the preparation of lunch. Smorrebrod (open face sandwiches) were served. With this we drank beer, milk, or water, and sometimes an innocent looking drink called "snaps."

Most afternoons were spent with the children - sewing, picking peas, shopping, giving birthday parties, visiting, sight-seeing, and sometimes just plain relaxing. By the middle of the afternoon one relished the thought of a hot cup of coffee and another piece of pastry.

The evening meal was invariably hot and always served with lots of potatoes and meager amounts of garden vegetables. Seeing as it was the season for strawberries, they were served in a variety of ways. To help settle the meal we sipped coffee while watching the evening news on TV.

While the family listened closely to what was being said, I merely watched the pictures. After it was all over, I usually got private coverage of the proceedings in English. I did learn to recognize many of the words by listening to English subtitles, and observing signs and advertisements.

Some of the evenings the family and I took brief rides here and there, went cray fishing, deer hunting, and visiting a local harbor to watch the sail races. The short lived darkness usually drove us home. We often went to bed as the sun's rays were starting to peek over the horizon.

Every day brought new and different experiences. I was very fortunate to be placed with a family which was happy to answer my questions and eager to make a fuss over their guests. This, however, applies more to the larger cities than the countryside. In the small country town where I was living, visitors got all the friendliness and fuss laced with the old-world politeness and formality.

My Danish father was the director of three brick factories. These were all in the area of Svendborg on the island of Fyn. One of them was actually situated in our own back yard. Although he was up to check on things early each morning, the three children always seemed to beat him to the punch. Henriette was 3, Anne Mette 4, and Frederik 5. They were going at 5:30 every morning and their squeals, although unbelievable, were muffled with a sound-proof feather pillow over my head.

I was called at 7:15 every morning either by banging of the children, the gentle knock of my Danish mother, or the maid. You're probably thinking "my goodness, even a maid." These were my exact thoughts when I realized that we had one. Karen is one of many Danish girls our age who is planning to further her education and for those who plan to enter either the nursing or teaching professions, they must complete one year's service in a home with chil-

## Job Brochure Nearing Completion

A Keene State College professor is editing a Greater Keene Chamber of Commerce brochure that will inform students in area schools of career opportunities furnished by business and industry.

The guiding hand for "Career Opportunities You Should Know About in Greater Keene Business and Industry" is Dr. Paul G. Blacketer, chairman of the Department of Education at KSC.

A chamber committee will meet with area business and industry leaders to enlist their aid in completing the brochure which is expected to be available the first of the year. The brochure, two years in preparation, presents career opportunities in semi-skilled, skilled, technical, management and professional areas, tells what qualifications and requirements are needed, and provides a cross reference.

Sparsely Settled -- Delivering address is Dean of Instruction, Clarence Davis at all college convocation. In the foreground is just some of the many empty seats.

## Students Credibility Gap

By Bob Anderson

This list of class officers and where they may be reached has been printed to facilitate better communication.

Officers' ignorance of student opinion and students' failure to inform their representatives of such has spawned the great "K.S.C. Credibility Gap." Oft times we cry shrilly, "We didn't want that band," "This is what I would have done," or "Why didn't we do that this year?" but all too late. Too often student Senators sit frustrated and bewildered when they, without knowing, must cast a vote that represents their class.

For example, at the S. S. meeting of 9/19/68 many senators were at loss as to how students wanted their College Senators elected. This is one of many typical instances where an officer can be as unrepresentative as hell.

The officers listed herein invite any and all communication as to how they could represent you best. Class organization and functioning is their responsibility. Closing the "Credibility Gap" is yours.

## Education Beat

By Harold Colburn

Last week the matter of money was discussed. Of course, this appeared to be directed only toward the teacher's wallet. Fortunately, this is not the only thing that teachers are concerned with. The education of our children is a major factor of the revolt of our teachers.

Let us turn again to the statement issued by the New Hampshire Education Association Executive Board of June 14th of this year. Here we find that only one in four of our secondary schools has a qualified librarian and only 11% of our school libraries approach minimum requirements.

Only 19 of 375 elementary schools employ guidance counselors. Only one in thirteen handicapped children requiring special education is receiving the appropriate program.

Less than half those children of kindergarten age are enrolled in a public school, and only 25 of 183 school districts provide such a program.

"Insufficient state testing programs, health services, teacher aides, clerical services, adult basic education programs are shortcomings which must be met."

Look magazine reports that David Selden of the American Federation of Teachers has said that "we teachers have been powerless all these years; for years there wasn't an agreement anywhere in the nation about how many kids can be jammed into a teacher's class. Professionals! As if a doctor would let a hospital superintendent tell him how many appendectomies he could perform!"

## Students Elect Own Program at Kenyon

GAMBIER, OHIO (I.P.) - Kenyon College has adopted a curriculum design program suited to his particular needs and interests. Instead of the familiar sequence of required general education and survey courses, the Kenyon student will design a program suited to his particular needs and interests.

Bruce Haywood, College provost, notes, "The backgrounds and interests of today's students are so diverse that no prescribed set of courses will satisfy even the majority. Our undergraduates need guidance and assistance, but not coercion."

The new program is composed of three elements: guided electives, the student's major program and free electives.

The guided electives give the Kenyon student a breadth of understanding of the arts and sciences. In conference with his faculty advisor, each student selects seven two-semester sequences from nine areas of study, ranging from the fine arts to the experimental sciences.

In establishing the areas of study, the faculty approved abandoning of the traditional ranking of English above a foreign language or of history above economics. It will now fall to the individual student and his adviser to determine the priority to be given to the study of particular disciplines.

"In a culture as complex as ours," Haywood comments, "we can no longer insist on a paramount position in the undergraduate curriculum for certain subjects. For some students, knowledge of a European tongue may be vital; for others the 'language' of mathematics may be of far greater significance."

Hllssssssstlll -- Could this be the dragon mouth that kept so many students away from last week's convocation? About 550 people attended the program - faculty, president's list, dean's list, and who's who people were required to attend. Over two-thirds of the total college population fail to register their vote by attending and consequently the dragon's mouth grows.

"No student can hope to encompass the range of man's activities as even a small college proposes," the Kenyon administrator notes.

"We must be sure that our students have a sympathetic understanding of matters outside their area of concentration, but we must also be sure that their general education is coherently related to their work in their major disciplines."

The principle of liberal education -- bringing specialized knowledge and breadth of experience into harmony -- is seen in the design of the student's major program. Here, eight two-semester course sequences are called for, but the student may take no more than six in his major department. Two to four units will be taken in associated departments, ordinarily in subjects started in the program of guided electives.

The third area is to encourage students to investigate knowledge which lies outside their immediate interest. The faculty has approved each individual taking up to four semesters of free electives. Instead of letter grades, the student will be scored either "satisfactory" or "unsatisfactory."

The new scheme leaves untouched the comprehensive examinations in the major subject which all Kenyon graduates must take. In addition, honors candidates are required to undertake an independent research topic and defend their findings before an outside examiner.

"Elimination of required courses will have a salutary effect for both students and teachers," Haywood believes. The new curriculum will provide greater flexibility than ever and we shall be able to move every student on to advanced, independent work as quickly as his abilities and preparation permit."

## Pass - Fail System At Harvard

CAMBRIDGE, MASS. - (I.P.) - Harvard's Faculty of Arts and Sciences will permit each student to take one course each year marked only Pass or Fail. The normal course load is four courses per year. The student's remaining three courses would be graded with A, B, C, D - with pluses and minuses - and E (fail).

The new plan extends to all students the option of ungraded courses previously available to some students in Freshman Seminars, in departmental tutorials and in independent study.

Each instructor will decide whether to accept Pass-Fail

courses may be counted toward the field of concentration.

The Pass-Fail option for one course each year grew out of proposals made by the Harvard-Radcliffe Policy Committee, a representative student group. The plan accepted by the Faculty was prepared by its own Committee on Educational Policy.

To take a course for a simple Pass or Fail mark, a student must announce his decision by the fourth Monday of the term. He cannot select a course as Pass-Fail later in the term, and cannot later shift a course from graded to Pass-Fail or from Pass-Fail to graded.

The Pass-Fail option will be reviewed by the Faculty in 1970. The Harvard Pass-Fail option differs from Pass-Fail systems recently adopted at Princeton and at Yale. At Princeton, a student may take a fifth course on a Pass-Fail basis. Yale changed from numerical grading to a system of grading by Fail, Pass, High Pass, and Honors, which might be compared to letter grades of E, C, B, A.

## New Hampshire Voting Law

RSA CHAPTER 65 - Presidential Electors - QUALIFICATION FOR VOTING. Notwithstanding the residence requirements of RSA 54:8, a person who has moved from another state to this state or from one town or city within the state to another town or city within the state, and who has been a resident of this state for thirty days preceding an election at which electors are to be chosen for the office of president and vice president of the United States, is entitled to vote in this state solely for such electors if the person is qualified to vote in this state, other than by reason of the residence requirements of RSA 54:8.

65:1-B VOTING PROCEDURE. For the purpose of RSA 65:1-a the supervisors of the checklist shall prepare a separate checklist for voters qualified to vote under that section. The secretary of state shall prepare a separate ballot for persons voting under that section which ballot shall be a different color from any other ballot used in that election. No special absentee ballots are authorized for persons who qualify to vote for presidential electors solely by reason of RSA 65:1-a. On the special ballot required by that section the names of the voting districts are not required to be printed. The secretary of state shall furnish fifty special ballots for towns and wards of less than five thousand population and one hundred special ballots for towns and wards of over five thousand population.

Dr. M. D. Keller  
History Dept.

## University of Iowa Students Set Own Academic Pace

IOWA CITY, IA. - (I.P.) - On trial at the University of Iowa is the new policy which permits students to get credit without actually taking the course.

Comprehensive examinations now offer an alternative route to credit in the core courses required for graduation in Liberal Arts. For some twenty years, liberal arts students have been required to get eight semester hours of credit in each of four areas: literature, historical-cultural studies, social

sciences may be counted toward the field of concentration.

The Pass-Fail option for one course each year grew out of proposals made by the Harvard-Radcliffe Policy Committee, a representative student group. The plan accepted by the Faculty was prepared by its own Committee on Educational Policy.

To take a course for a simple Pass or Fail mark, a student must announce his decision by the fourth Monday of the term. He cannot select a course as Pass-Fail later in the term, and cannot later shift a course from graded to Pass-Fail or from Pass-Fail to graded.

The Pass-Fail option will be reviewed by the Faculty in 1970. The Harvard Pass-Fail option differs from Pass-Fail systems recently adopted at Princeton and at Yale. At Princeton, a student may take a fifth course on a Pass-Fail basis. Yale changed from numerical grading to a system of grading by Fail, Pass, High Pass, and Honors, which might be compared to letter grades of E, C, B, A.

## Student Representatives For The College Senate

After careful consideration, the Student Senate of Keene State College has decided to select the 3 students (one from the Student Senate and 2 from the student body at large) to the College Senate Thursday, Sept. 25th at a special meeting.

Numerous students have expressed an interest in this responsible position and it is hoped they will fill out the form below and return it to the Student Union desk before 1:00 Thursday in order to be considered as candidates for this office.

NAME: \_\_\_\_\_  
YEAR: \_\_\_\_\_  
QUALIFICATIONS:  
1.) A Student of K.S.C. at least one year.  
2.) Good Class and College Standing.  
3.) 2.5 cumulative average.  
4.) Live in Keene area for 1968-69 school year.

"The brilliant high school student who might otherwise repeat work already mastered can be moved ahead to advanced work. The adult who has acquired knowledge and skill from experience as well as formal courses, perhaps of an unorthodox nature, can be given credit toward a degree." Dean Stuit expects the number of students taking the examinations for credit at Iowa to increase to about 100 a semester. A decision on future operation of the program here will be made after an evaluation of the first two years' experience. "The experiment thus far appears successful," Dean Stuit says.

## WHO NEEDS IT ?

Two events of great importance to this campus occurred last week and neither function was apparently necessary, judging by the response to the student body of Keene State College. The two events—of note were the all campus convocation held on Wednesday, September 18, and the special meeting of the student senate on Thursday, September 19, and interestingly enough, the absence of so many students for both events ridiculed the very reasons for the programs being held.

What was so important on Wednesday that you couldn't give an hour of your time to hear your college officials speak? Why should you people be given the opportunity to hold a position on the College Senate when you don't even have the responsibility to attend a simple college convocation? If you can't take the time to be involved in your job or your role as a student then why should others on this campus give of themselves to help you? What others? Your own student senate is a good example of effort and manpower being expended for the betterment of KSC and consequently you.

The selection of three representatives for the College Senate is not an easy job for the senate and it is not being made any easier knowing that most of you don't even know about the senate, the members, or the role you play in its decisions. Because of your avoidance of meetings, the student senate has no apparent choice but to assume that you are politically incompetent and thus should be given no credence as an electorate body. Do you know that the senate is for the expression the senate cannot establish an efficient relationship with the powers that be? Did you ever attend a student senate meeting? Do you know who the president is? Who are the people representing your class? Last week The Monadnock printed a blank form to be filled out by people interested in working on student union committees. Mr. Moore received two blanks from a student body of 1700. Last week the student union sponsored a film; there was a capacity crowd in attendance. Are we making ourselves clear, or is it asking too much of you to give less than one hour a week of your time to help your college? So far, arousing student interest seems to be a Mission Impossible, but unless we can accomplish this mission, K.S.C. will self-destruct in one semester.

## Thoreau On Keene

Henry David Thoreau's mother, Cynthia Dunbar, was a native of Keene. In 1850 Thoreau penned the following about his mother's birthplace:

"Keene Street strikes the traveller favorable, it is so wide, level, straight, and long. I have heard one of my relatives, who was born and bred there, say that you could see a chicken run across it a mile off. I have also been told that when this town was settled they laid out a street four rods wide, but at a subsequent meeting of the proprietors one rose and remarked, 'We have plenty of land, why not make the street eight rods wide?' and so they voted that it should be eight rods wide, and the town is known far and near for its handsome street. It was a cheap way of securing comfort, as well as fame, and I wish that all new towns would take pattern from this. It is best to lay our plans widely in youth, for then land is cheap, and it is but too easy to contract our views afterward.... Keene is built on a remarkable large and level interval, like the bed of a lake, and the surrounding hills, which are remote from its street, must afford some good walks. The scenery of mountain towns is commonly too much crowded. A town which is built on a plain of some extent, with an open horizon, and surrounded by hills at a distance, affords the best walks and views."

The above appears in "UPPER ASHUELOT" A HISTORY OF KEENE, NEW HAMPSHIRE, which was published in August 1968. The quote comes from the book's first and largest section which was researched and written by David R. Propper, KSC's Acquisition Librarian.

### OCTOBER BIRTHDAYS

October 1, 1909—A postal treaty provided a two-cent rate for letters between the United States and England.

October 3, 1789—The first Thanksgiving Day proclamation was given by George Washington, designating November 26 for our first day of general thanksgiving.

October 6, 1927—"The Jazz Singer," the first talking feature picture, opened in New York, starring Al Jolson.

October 11, 1811—The world's first steam-propelled ferry started its run between New York City and Hoboken, New Jersey.

October 15, 1954—Hurricane Hazel ripped through eight Eastern states from South Carolina to Canada with a toll of over 100 dead and damage totaling \$500,000,000.

October 18, 1867—Gen. Lovell H. Rousseau took formal possession of Alaska for the United States on Sitka Island; purchased from Russia at about 2¢ per acre.

October 23, 1943—British troops under Montgomery crushed Rommel's army at El Alamein, Egypt.

October 27, 1858—Theodore Roosevelt was born in New York City.

October 30, 1735—John Adams, second President, was born at Quincy, Mass.

## Letters To The Editor

In answer to your inquiry relative to the hole in the lawn on the west side of the Science center, be advised that the digging up of the stream line was necessitated by the fact that a leak occurred in the condensate return line and that the outer jacket which houses the condensate return line and the main steam line also developed a leak. This line is still under contractor's warranty and therefore the work is being done at the expense of the contractor and not at the expense of the college.

Proper tests and other determinations were made at the time of installation and showed no leaks at that time. The cause of the leak has not been ascertained by his office but the repair of such leaks has now been accomplished.

The hole that occurred at the corner of Applan Way and Hyde Street was a leak in the outer jacket of the condensate return line and the steam line. This line services that Commons Building and has now been fully repaired and once the bill has been settled we will repair the black top pavements so that it will eliminate the bump and also do away with the dust factor that is now there.

Robert L. Mallat, Jr.  
Director  
Physical Plant Development

Dear Editor,

This letter is directed to those students who care about the future of their nation and who would like to work for a common aim—freedom, balanced by a government by just law.

Despite three decades of growing centralization of power; accompanied by the disintegration of local and individual rights; America's steady retreat in the race of Communist determination to dominate the world; and a decline in patriotic and moral standards, many young people have rediscovered Constitutional principles of government and the natural rights of man.

And they are determined to restore those principles.

These young people are members of the Young Americans for Freedom. Since the founding meeting at Sharon, Connecticut in September, 1960, the organization has grown from a handful to tens of thousands of members on college campuses and in communities in nearly every state.

I am now organizing a chapter of YAF on the K.S.C. campus. All those who would like to join YAF or who would like to have more information should contact me.

Guy Granger  
135 Huntress Hall

# WANTED: ALIVE STUDENTS TO PARTICIPATE

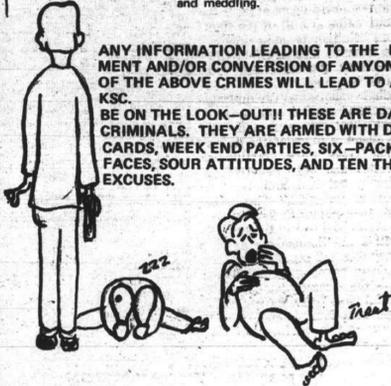

**REWARD:** An effective and attractive campus—both socially and educationally!

**CRIME:** Apathy; Stupidity; Laziness.

**REASON:** Slipshod representation, poor organization, and meddling.

ANY INFORMATION LEADING TO THE ENLISTMENT AND/OR CONVERSION OF ANYONE GUILTY OF THE ABOVE CRIMES WILL LEAD TO A BETTER KSC.

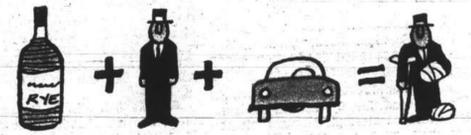

BE ON THE LOOK-OUT! THESE ARE DANGEROUS CRIMINALS. THEY ARE ARMED WITH DECKS OF CARDS, WEEK END PARTIES, SIX—PACKS, LONG FACES, SOUR ATTITUDES, AND TEN THOUSAND EXCUSES.

## WORTH TALKING ABOUT

"Each of us, I think, has accepted the absolute necessity of involvement as citizens and businessmen in the urban problems of our times. Let me make this observation: Our ultimate goal is not to offer welfare in any form; it is to offer opportunity in every form. Our obligation is not to perpetuate dependency; it is to remove the roadblocks that stand in the path of self-development."

J. D. Wright, Chairman  
& Chief Executive Officer  
TRW, Inc.

## Owl Booters Rally for 2-2

The Keene State College Varsity Soccer team rallied for a 2-2 exhibition standoff against Windham College on Friday afternoon. After falling behind 2-0 the Owls, led by Steve Parker, scored twice in the last 19 minutes of the game to salvage a tie.

The Windham booters scored first early in the game as a penalty kick was awarded after an Owl player committed a personal foul. The kick was neatly placed into the upper right hand corner as Keene goalie Brian Richardson made a desperate lunge at the ball. The goal came at 8:04 of the first quarter. Neither team seemed to be able to move the ball effectively and the first quarter ended with no further scoring.

Windham scored again midway in the second quarter on a beautiful angle shot that rose and just barely made it in under the cross bar. The Owls were starting to pass better and were penetrating the defense but just could not put the ball in the goal. The Owls had out shot Windham 7-5 in the first quarter and 6-3 in the second but still found themselves at the short end of a 2-0 score.

The Owls never gave up, however, as the amazing Parker took a beautiful pass from Wally Dwinells and beat four defenders and the goalie for a picture perfect

goal at 3:22 of the third quarter. This seemed to restore the whole team as the Owls began to press Windham and force them to make mistakes. Then at 17:00 minutes of the third quarter the home towners were awarded a penalty kick. Coach Joyce elected to have Swain take it but he missed the shot and it dribbled weakly off to the left. All the steam seemed to go out of the Owls but then at 19:35 Parker gathered in an errant Windham pass, scooted by two defenders and pumped a wicked hooking shot into the left side of the net. The Owls were now gaining their confidence and Windham played the rest of their game with their backs to the wall.

The Keene club could have won the game in the last ten seconds but Parker's last shot sailed over the crossbar and time ran out. Much credit for the team's showing goes to the defensive hustle of all the players that continually kept the Windham players off balance. The regular season opens here September 28 against Lyndon.

Score	1	1	0	2

## Intramural Football

### Alpha "A" vs George's Gym

The first half of the game saw little action as both teams were unable to deeply penetrate their opponents territory.

Going into the second half, the first light of the game was an intercepted DeStefano pass by Alpha's Jay Dubur. A series of Martin-Robertson, Martin-Dubur passes led Alpha deep into Gym territory. However, with first and goal Alpha was unable to hit paydirt.

George's Gym came back to life

in the second half but was unable to cope with the Alpha defense. With under five minutes left in the game, Alpha's Pete Martin connected with Robertson to move the ball from their own 30 to the Gym 40 yard line. Again Martin connected with Dubur for 6 pts. With time running out Georges Gym took over possession but was unable to beat the clock.

Alpha "A"	1st	2nd	Total
George's Gym	0	6	6
George's Gym	0	0	0

### TKE "A" vs Kettles

Final score of the game between TKE "A" and Kettles was TKE "A" 6 Kettles 0.

TKE scored the only touchdown in the first few minutes of the 1st half when Jocko Landry threw a pass to Shawn McGiven for a 65

yard touchdown. The 2-point conversion failed. The rest of the game consisted of an exchange between the two teams.

TKE "A"	1st	2nd	Total
Kettles	6	0	6
Kettles	0	0	0

### TKE "C" vs Alpha "B"

First half play saw good defensive play by both teams, as neither was able to deeply penetrate defensive territory. Each team had hopes as there were two interceptions. TKE's Mavrogeorge intercepted a Charlie Poland pass while Alpha's Poulin took a Boonsar pass. Although hopeful interceptions neither turned out as advantages.

The second half of the game saw intense action as the two teams battled it out. With ten minutes left in the second half a Poland pass was intercepted by an un-

identified TKE player. A series of Boonsar-Ross, Boonsar-Abbott passes led TKE's offense deep into Alpha territory. On a first and ten play Boonsar swept around the end for 6 pts. On the conversion attempt Boonsar hit Abbott good for the points after. Alpha "B" came back but were unable to score with time running out. The final score TKE 8 - Alpha "B" 0.

TKE "C"	1st	2nd	Total
ALPHA "B"	8	8	16
ALPHA "B"	0	0	0

### Kappa "B" vs Married Students

Running was the name of the game as the Kappa B football team took an 8-0 victory over the Married Students in intramural play. Leading the running attack for Kappa was Burley and quarterbacking for the Married Students was Kolb. Both defensive teams held against heavy passing attacks but the Married Students were unable to contain the Kappa running plays. With one minute left in the 1st half, Kappa's Stefank scored on a right end sweep. Stefank then connected to Burley for the 2 point conversion to put Kappa ahead.

In the second half, the Married Students got their hands on the ball several times, but were stopped by the Kappa defense led

by Al Dunbar who intercepted two passes. Kappa moved within the Married Students' 15 yard line but was forced to give up the ball on downs. Neither team was able to move for the remainder of the game and it ended in Kappa's favor.

Kappa "B"	1st	2nd	Total
Married Students	8	0	8
Married Students	0	0	0

## Physical Education Facility Rapidly Nearing Completion

The Physical Education facility, which has been under construction since March of 1967, is rapidly nearing completion. That was the word today from Robert L. Mallat, Jr., Director Physical Plant Development. Mallat also explained that, as of September 1, portions of the new building had been occupied and equipped. The faculty offices was one example cited.

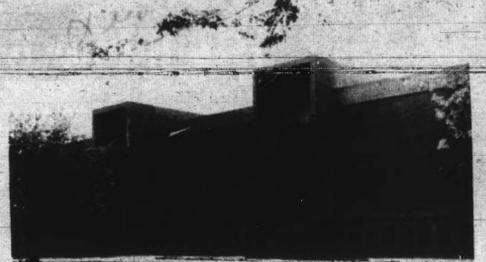

The locker and shower rooms are nearly completed and already are being utilized by students. New lockers, ordered during the summer, are tentatively scheduled for delivery during the second week of October. Complete installation of the new lockers is expected by October 15.

Describing other facilities on the first floor of the new building, Mallat said that classrooms are also nearing completion and the KSC maintenance staff is presently painting them. The training room, corrective lab, and weight room are all completed and most of the equipment ordered for them is now in place. The Physical Education will determine when activities will begin in these rooms.

The college has occupied both the auxiliary gyms located on the second floor. There is a "street shoe gym" as well as a gym with a hardwood floor. Classes have already been held and more activity is planned in the future. The large main gymnasium, declared Mallat, is nearing completion by the general contractor, the final coats of sealer having been applied over the weekend. The remaining problem is the installation of the bleachers and this should start approximately October 1. Nearly 2,000 bleachers will be installed in the following manner: the north wall of the gym will be completely filled with bleacher seats and half of the south wall will have bleachers attached. The backboards, both for the main gym and the two auxiliary gyms on the main floor, have been ordered and will also be installed around the 1st of October. Likewise, a 4-sided scoreboard, which will be hung from the center of the main gym, has been purchased and its installation will take place with that of the other equipment.

Describing some other features of the new Physical Education facility, Director Mallat said that the wrestling room on the third floor is ready and mats were on order. The handball and squash courts needed a final coat of paint on the floor and also proper markings along the wall. Mallat said that such work has been assured by the contractor and hopefully the courts will also be available by the first of October.

The big delay in the final completion of the Physical Education facility is the completion of the pool. The delay has been caused

Gaunt Sentinel of Physical Prowess -- The new physical education building as seen from Applan Way will provide extensive facilities for physical exercise of various forms.

by many factors, the main one being the redesigning of two 90-foot light bars over the pool. The redesigning has been accomplished, the suspension system is in place and the light bars are now functioning properly. The ceramic tiling of the interior of the pool as well as a finish that will go on the pool remains to be done. The installation of the 3-meter and 1-meter diving boards must be done and also the testing of the pool and filling, etc.

When asked about a total completion date, Mallat said that the

MOBILE BIKINI MARTINI — Scientists have discovered a way to package cocktails in cans so that they will remain fresh for more than a year. The secret is in the inner plastic coating of the aluminum cans used by the new Club Cocktails, developed by researchers at Heublein, Inc. The convenience product and package were designed to meet the needs of an increasingly mobile society. Canned cocktails now go anywhere beer cans do — at the beach, at poolside, or picnics, in boats, at football games. They need only be chilled before serving. An 8-ounce can contains enough for three drinks and generally retails for under a dollar. There are six varieties — martinis, whiskey sours, daiquiris, margaritas, manhattans and screwdrivers.

### Soccer Squad Small— But Tough!

Coach Sumner Joyce's 1968 soccer team at Keene State College might be likened to a small New England cabinetmaker's shop; excellent quality but not much quantity. "We're going to be awfully thin, particularly if we have any injuries," the veteran KSC mentor said as the Owls practiced this week. "We have seven starters back, some good veterans and some promising freshmen. And I think our overall quality will be better. But we will carry only 20 players this year and we are just too limited in numbers if we have many injuries." Joyce, starting his 22nd year, hopes to improve on last season's fine 9-4 overall record, which was 8-4 and good enough for fourth place in the New England State College Athletic Conference. "I'm not going to predict any conference championship," he said in answer to the leading question. "I'm optimistic about our chances, but there are some real good teams to beat in the conference."

The biggest loss this year is that of center Ronnie Dias of Ludlow, Mass., who led the Owls in scoring for four straight years. Dias has graduated. But Joyce still has an experienced nucleus back. The seven starters returning are seniors Richie Messer of New London; juniors Wally Dwinells of Hopkinton, Terry Moore of Vergennes, Vt., Mark Taylor of Dover and goalie Brian Richardson of Benton Station, Maine, and sophomores Chuck Stone of Marlborough and Rick Swain of Norwalk, Conn. The other returnees are Larry Robinson of Marlborough, a sophomore; Don Sanborn of Kingsport, a senior; Glenn Wescott of Franklin, a sophomore; and Joe Starkey of Winchester, who was a starting halfback two years ago but did not play in 1967. In addition, there is a promising group of freshmen, headed by fullback Tom Chase of Merrick, N.Y., and Steve Parker, an Englishman from the London suburb of Slough, Buckinghamshire County. "Chase will be a real good fullback this year," says Joyce. "And Parker is an excellent prospect. He became interested in Keene State while visiting relatives in Vermont. He's a good ball handler and although he has become accustomed to the American soccer game, where there is less emphasis on

an individual style, he is a fine passer." Other frosh prospects are Bob Casa Grande of Easthampton, Mass.; Duane Webster of Danville, Vt.; Daryl Graves of Walpole, Mass.; John Devlin of Jeffrey and Tom Boyes of Interlaken, N.Y. The Owls open their 13-game season with a home game against Lyndon State College of Lyndonville, Vt., on Saturday, Sept. 29, 2 p.m. One player who may have to miss the opener is Messer, who injured an ankle in practice this week (Sept. 18). He is out for 10 days. The schedule: Sept. 28, Lyndon; Sept. 30, at North Adams; Oct. 3, at St. Anselm's; Oct. 5, at Westfield; Oct. 9, at Plymouth; Oct. 11, at North Adams; Oct. 15, Castleton; Oct. 18, Fitchburg; Oct. 22, at Eastern Connecticut; Oct. 26, at Gorham; Oct. 28, Plymouth; Oct. 30, Salem; Nov. 2, Johnson.

### Who's Who In The Phys. Ed. Dept.

Mrs. Richardson

Have you met Mrs. Richardson? She may be seen working with many students in their activity classes or working behind the scenes to make unified programs for all to enjoy. Mrs. Richardson, formally head of the Women's division of physical education has a five year old son and resides in the Keene area. She received her Bachelor's degree from U.N.H. in the field of physical education. During her years at school, she was a member of the all-star team in basketball, field hockey, and lacrosse. An active member of her school, she was on the executive board of W.R.A. and a member of the women's Major Council. She organized the first career day for her physical education department. Her strong interests were and still are centered around team sports and coaching at a high level. Following graduation from U.N.H., Mrs. Richardson taught for three years in the Lebanon-Clairemont area. She came to K.S.C. in 1964. She has done a variety of things to improve K.S.C. physical education for girls. She helped to add new sports. Recently, she assisted the executive board of the Women's Athletic Association in enlarging opportunities for men's recreation on campus. The resulting effort is now called the Women's Recreation Association. W.R.A. is open to all women as compared to W.A.A. which had restrictions such as an all-star team membership. One of Mrs. Richardson's prime interests is basketball. She has held her National basketball rating for four years. As a member of the N.H. board of women's officials, she helps rate new and old officials. This year she has been selected to attend the fifth national conference on girls sports held at the University of Southern Illinois. The conference, concerning advanced coaching of basketball will be held during semester break in January. In reference to the program of activities for women, Mrs. Richardson noted that it is coming well. However, she would like to see the intramural part of the program strengthened and the varsity level expanded somewhat. This year she is coaching varsity basketball and varsity field hockey is expected to be offered. As for her own future, Mrs. Richardson hopes to continue her education as soon as it is feasible.

### Recommendations Put Student In Governing Role At U. Of Wisconsin

MADISON, WIS. (L.P.) — A University of Wisconsin faculty committee has offered recommendations which — according to the student newspaper, the Daily Cardinal — "should put Wisconsin ahead of any major university in the country in expanding the role of students in the governing of the institution." The nine-member faculty committee, headed by Prof. James F. Crow, has offered the following general proposals:

1. "... practically complete withdrawal by the University from its in loco parentis activities... an end to regulation of students' off-campus lives and of such aspects of their on-campus non-academic affairs as hours regulations. All students over age 20, and all students under that age who are married or who have parental permission, should be able to live in housing of their choice."
2. "... broader student participation in various forms in practically all areas of University government..."
3. "... greater student self-governing authority... the elimination of the present Student Life and Interests Committee... distribution of its powers among Wisconsin Student Association and smaller, joint student-faculty committees..."
4. "... restructured, limited, and clarified University disciplinary procedures. We oppose duplication of any civil law penalties by University action, except in certain unusual cases... Trials should be before joint student-faculty hearing panels, with appeals heard by all-faculty panels; in neither hearing nor appellate stage do we think it appropriate for an administration official to participate as either judge or juror..."
5. "... University discipline should be imposed only for intentional conduct which (1) seriously damages or destroys University property, (2) indicates a serious continuing danger to the personal safety of other members of the University community, or (3) clearly and seriously obstructs

Creative Theater  
(Continued from page 1)  
stint as an English and speech teacher in Salisbury, Maryland, her drama students won first place in state competition for their production of "The Sandbox." She also taught at Salisbury State College. In Maryland she was active in community player productions, and was a charter member of the Maryland State Speech and Drama Association. She comes to us from the University of Iowa where she did graduate work in theater. (She relates that she is still a member of the Iowa Mountaineers and that as part of her association with them, she took her turn at a 10 day wilderness "camp-in.") Many people, upon hearing that Oscar Wilde's play, THE IMPORTANCE OF BEING ERNEST, will be KSC Theater's first venture in 68-69, wonder why this play was chosen for KSC production. Among Mrs. Oberfrank's reasons are the following: that some of her graduate work was involved with the problems of directing period productions, that this happens to be one of her personal favorites for its wit and charm; that it is a fun show to work on and to see, that it offers technical acting problems that present challenges for both the actors and the director and that she sees in this play many parallels between the social conventions of the 1890's and the 1960's. The challenge of creativity is very important to her. Those who work with her will find that her approach is different. She feels that theater should be a creative process among a group and that each member should gain a feeling for artistry from whatever part he does.

If people are willing to accept change as a part of creativity, the theater should be very challenging this year. We welcome Mrs. Oberfrank and wish her success.

### Steel Inventory Restricts Buying

Steel analysts are predicting normal buying and shipping patterns in the industry will not be restored until late in the first quarter of 1969, Steel magazine reported in Cleveland, Ohio recently. They point out that monthly consumption is expected to be only 8 million to 8.5 million tons; imports will continue to be heavy—averaging at least 1.4 million tons a month, and consumer inventories are high—around 13 million tons above normal. It's estimated that liquidation of inventories by users will extend into next March, assuming users deplete their stocks at a rate of 1.5 million tons a month.
