Dearest Helen,

Tuesday night

P.P.S. → EL4-9629

So, so good to get your letter
yesterday. Have been trying for
days to find a time to share
everything with you. So far it
has been simply impossible -
one time-consuming (relatively
inconsequential) project after
another. Have only glanced at
the readings, which are
enormous! Harvard & SA
was not a bit more demanding.

No field assignment as yet,
but everything else. Rather
than Greek (which I'll take
here, beginning next semester),
I am ~~taking~~ ^{conducting} German at

Harvard. Others: H.T. (solid),
O.T. (Lutheran, therefore delightful),
Church History (exciting course
and instructor), and an
introduction to theol. education
& the ministry with Dean
Colburn, whom I am getting
to like. My faculty advisor is
new, young, brilliant, and
exceptionally helpful.

Have painted room (study - living
room) a soft, beautiful French
gray - almost beige. Curtains & a
rug from Bob's sister, plus a
few of our own touches, make
it moderately attractive.

Millions of new books! I love it
here and hopefully pray for real
growth. And always for you. Miss
you, Partner. Much love, Son
