My darling,

Weather was lovely today and Jim and I went outdoors early. Eleanor stayed overnight and is good company. We're all fine and miss you as does much. I spoke to who told me they're well and in receipt of your Nov. 28th V. mail. Bob received 2 letters from you and he's well too. Jimmie is still a cuteascal and is learning everything fast and furious but I honestly wish Sammie wasn't one of his companions. It's one of these things that can't be helped.

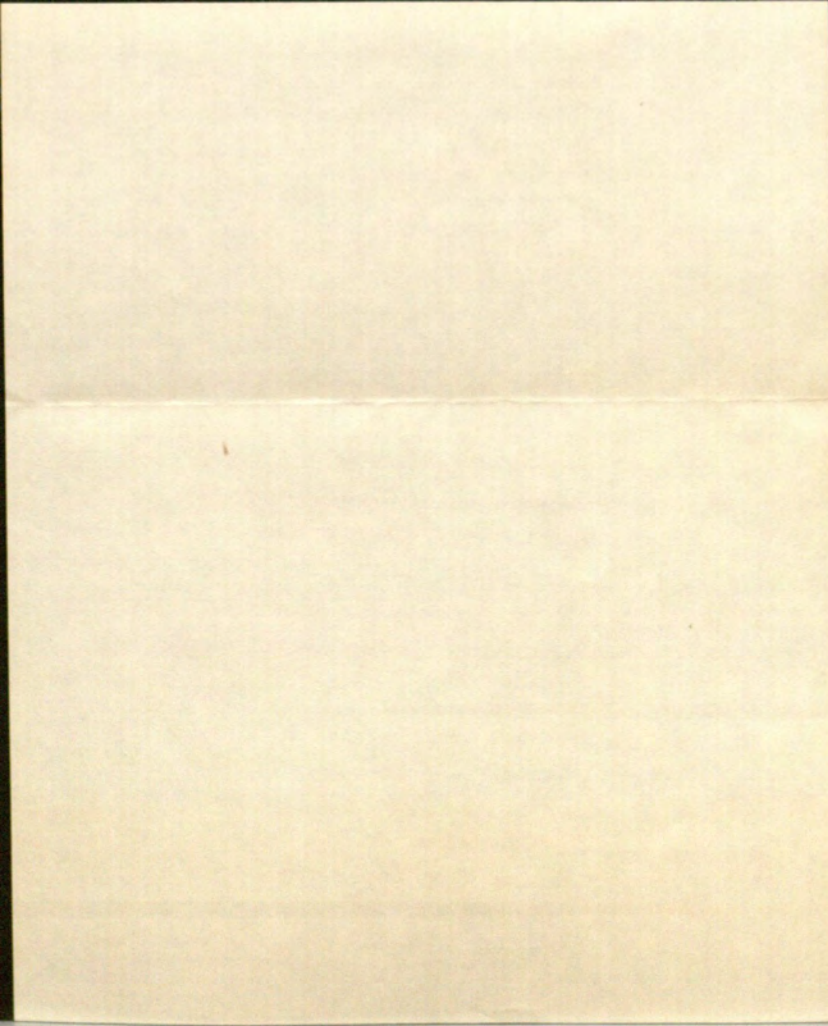

No mail from you today but there must be plenty en route. Hope you're getting mail after from me. So far I've sent you 12 so I acknowledge all you get. Christmas is almost here and that means more holidays without my dearest one near to me. But I'll be brave and patient and we'll celebrate our happy days very soon - and there'll be plenty occasions.

Just had dinner here (lung stuff) which Sissy and Eleanor and my thoughts were and are of you every moment. All my love and devotion as always. Yours & Jimmie's
