Hi Beverly,

After the pilot year we changed the page limitation for the assessment documents--you do not have to limit the pages as long as what you submit is appropriate. The wording in all our instructions in Section IV now says :

It is preferred that each attachment for a specific assessment (5a-c above) be limited to the equivalent of five text pages, however in some cases assessment instruments or scoring guides may go beyond 5 pages.

The document you attached to the e-mail will be accepted.
