My darling,

To-day was a very pleasant one especially after Pop and I spoke with you. Whenever you call I don't remember half the things I want to ask you and say to you and besides there isn't too much time. Mom came in about $\frac{1}{2}$ hour later and was so sorry she couldn't speak with you. The remainder of the day was spent with your folks here and your precious little one did all the entertaining. And what an entertainer he is - with his acrobatics, unsteady walk, cute tricks and his grand smile.

When I diaper him, he knows how
to louden his private and he sure
calls & my attention to everything about
him. He knows you, Duddy, by pointing
to your picture.

After baby's lunch, your mother
and I sat downstairs while Jimmie
had a 2 hour nap. Pop slept upstairs
on your bed. The weather was grand all
day and not too cold. Later on I
had an early dinner and then took care
of baby. Mom and Pop left about 5-
o'clock.

It was a quiet Sunday as all
Sundays should be but oh gosh
how you are missed by your
beloved wife - whether it be Sunday
or any other day.

It's good to know you get out into the open especially since the weather hasn't been too bad up to now and that you haven't too many things on your mind except those few at home. And please don't worry about us - I've been actually stuffing myself with too much food and Jim looks swell and I also noticed that for the last few days he has a tiny "corporation" - Your Mom and Pop are well too.

Later I'll tend to some more duties and have to catch up on my knitting. The Times has some swell ads that I'll scan over before I go to bed.

Stanley and Bess and some of our neighbors want to be remembered to you. Will you drop Bess a card?

1768-55th St. Bklyn. Thank you my
love. She calls daily - honestly.

I'm now using the Parker 51 and
it's joint is very sensitive. Part of the
writing you'll notice is blurred.

Jimmy's asleep now and the
apartment is quite comfortable. I keep
the rooms humidified and that's im-
portant because I think Jimmy's rashes
have been due to the dryness in the air.
So I've checked them, I hope, with the
Boric Acid Ointment and the (humidification?)

Looking forward to your letters on the
morrow and with my fingers crossed
for that week, I'll say Good night,
my sweetheart, with all the love that's
in my heart. Pleasant dreams
Faithfully yours,
Flora

Love from baby.
