

Dear Sir

34 261
Philadelphia Dec^r 10th 1781.

I have drawn on you a bill for one hundred pounds at ten days sight. The bill I suppose will be sent by Mr Robert Morris in whose favour it is drawn to Col Langdon for the use of the 74 gun ship he is building.

I have heard nothing about a new choice of delegates in N.H. consequently I take it to be the pleasure of the state that I should stay here till the 18th Jan. & then return.

If I should hear nothing from you I shall shape my course accordingly. I suppose the above sum will just bring me home.

The State of New York have sent Congress a resolution of theirs by way of protest against the proceedings of Congress, in the affairs of Vermont, and as Vermont does not appear to comply with Congress in their resolution of Aug^r last, I expect the whole work will be to go over again. President Wheelock is here, he professes to have nothing to do about the State of Vermont, but to obtain something for the college. He also says he expected

that Vermont would quit their claim east of
Connecticut river: agreeable to the resolution
of Congress.

I am Dear Sir your friend & most
obed^t humble servant
Samuel Livermore

Hon^{ble} President Ware
