

Friday aft & eve  
March 24, 1944.

George, my love,

The weather was glorious to-day and was most welcome after yesterday's rain. Baby and I are fine and dandy and were out all afternoon to enjoy the sun and air.

Last night Winnie and I did manage to get out early and see the show. It was good but not as wonderful as the critics wrote it up. Elliott Nugent was so hammy that we had to laugh when he opened his mouth. But Margaret is fairly good - better in the movies. The crowds are thicker than ever on Broadway and we were glad to get home, the very best place on earth. Oh, how I missed you last night, in fact, every night.

Thanks, darling, for the very sweet birthday card. Also received the week's schedule and the list of effort shooters. You will probably want to go a hunting after the men are over. The Interboro Mutual sent the automobile policy to day and the bill is \$47.30 less 25% div. balance due 35.47. So I pay this policy this month or next? I also noticed that my policy was always paid in April so I'll send the check next month. Another problem.

If you're transferred to another distant place from N.Y. is it advisable to use the car? If "A" Card holders are not permitted to

drive for pleasure (that plan may be like  
the previous summer), shall I put the car  
on blocks and not renew the policy. Let

me know or do you have any suggestions?  
I mailed your report <sup>(memo)</sup> in a separate envelope today.  
My few calls to day - first from the  
family and also my cousin Bertie. Joe was  
out in 2D (the cage). Helma is making a  
birthday party for Joel to-morrow so  
I'll take Jimmie and treat him to some  
birthday cake and stuff. My mother was  
with me this afternoon and left a while  
ago to visit Helma and Joel.

Boby had a lot of fun to day running  
about in the street. He picks up bits of dirt,  
match sticks, coal and hands it all to me.

I'm glad he doesn't eat it. His snowsuit is a little too small for him and he'll wear it just a few more times. Good news. —

I started the cup habit today and he loves to drink out of it. He spills more than he swallows but it was worth while watching and starting. All things must have a beginning.

Most of the work is done, the closets are fixed up and I'll finish up to-night. It's always easier to work while baby sleeps.

The folks are fine and I'm feeling very hopeful lately. I still love you very much, dearest and hope to tell you that in person soon. Keep well and we'll stay well too.

With all the love that's in my heart  
and a kiss and hug from baby, I am  
Yours always,  
Florence
